Raising the Bar

LeadingAge members take responsibility for raising the bar in our field, as not-for-profit aging services providers. Our mission is to be the trusted voice for aging. We strive to fulfill that commitment through innovation, quality, and excellence. LeadingAge offers a variety of programs and resources, including this report, based on the latest senior living field-related research and knowledge.

A Note from LeadingAge

LeadingAge is pleased to partner with Ziegler to bring you the 16th edition of the LeadingAge Ziegler 200 (“LZ 200”).

This publication has become an eagerly anticipated annual report of the largest, most complex, not-for-profit senior living organizations since its inception in 2004. Our 2019 report demonstrates the significant role that LeadingAge member not-for-profit organizations play in the aging services field. From the oldest to the newest, the largest to the smallest, each organization has a unique story that includes commitment, community engagement, stewardship, resilience, and a reputation for going above-and-beyond.

Today, LeadingAge members are creatively addressing complex challenges. Governing boards and senior leaders are engaging in effective strategic planning to reposition, grow, change, partner, innovate, and venture into new service possibilities. The following pages present a snapshot of the longstanding story of our members’ enlightened leadership, transformation, and good works. By telling their stories, these organizations are engaged in shared learning - offering their experiences and strategies to the entire field.

At the same time, they are helping to increase public understanding of the older adult services provided by our sector.

The LeadingAge Ziegler 200 is not designed to be a qualitative report, nor an endorsement of any specific organization. Each organization ranking represents strong governance and powerful leadership dedicated to quality services and long-term success.

LeadingAge is committed to serving as the trusted voice for aging for all providers in the older adult services field. I thank you for your interest and on-going support of this report.

CAPITAL :: INVESTMENTS :: ADVICE

A Note from Ziegler

We are excited to be celebrating the LeadingAge Ziegler publication's 16th year, as we present data from the largest 200 not-for-profit senior living providers in the country. This year's report, highlighting the 200 largest not-for-profit providers, represents more than 300,000 market-rate units and nearly 1,600 market-rate communities across the entire country. LeadingAge has been the ideal partner for this research initiative and we look forward to seeing providers, industry professionals, and key stakeholders take full advantage of the wealth of information this publication provides.

Each year, we strive to stay on top of the latest trends impacting not-for-profit senior living providers. This year's publication continues to include the core sections with the number of units and communities, but also reveals insight into additional trends in home and-community-based services, third-party management, rental Life Plan Communities (LPCs), technology adoption, joint ventures, and future growth plans, to name a few. Growth through campus reinvestment and the continued pace of consolidation are two examples of trends that come to the forefront in the publication data.

We would sincerely like to thank the teams at LeadingAge and Ziegler who make this publication possible. We would also like to give a special thanks to all the providers who take the time to share their information and who embrace this publication year after year. As always, if you have any questions or feedback regarding the publication, we encourage you to reach out to us.

Enjoy the 2019 LeadingAge Ziegler 200 publication!

The LeadingAge Ziegler 200

The LeadingAge Ziegler 200 (“LZ 200”) began when two organizations recognized the need to examine and better understand the not-for-profit senior living sector: LeadingAge, the nation’s largest association of not-for-profit aging service providers in the country, and Ziegler, one of the nation’s leading underwriters of financing for not-for-profit senior living providers.¹

In response to the growing industry and the value of this report, in 2014, it grew from the LZ 100 to the LZ 150 and to the LZ 200 in 2018. The combined expertise of LeadingAge and Ziegler yields a reliable, useful, and valuable source of information.

The 2019 LeadingAge Ziegler 200 lists the largest not-for-profit systems providing aging services through senior living in the United States, in order of total owned market-rate units, as of **December 31, 2018**.

By sharing this current data, our goal is to illustrate the size of the not-for-profit segment of the senior living sector, in order to better raise awareness of the characteristics and overall trends of growing systems. Through this data, we also hope to further the understanding and delivery of successful senior living.

¹2018 ranking data and amounts provided by Thomson Reuters as of 12/31/18.

Chapter 1

Understanding the LeadingAge Ziegler 200

Importance of Not-for-Profits

A crucial difference between not-for-profits and other businesses is the approach of not-for-profits in decision-making and ongoing reinvestment of revenue back into the organizations. Many businesses begin with questions such as: how do we ensure a reasonable return for our shareholders?

A properly focused not-for-profit organization asks, how can we reinvest revenues for the betterment of the entire community and what is best for the residents and clients we serve?

Not-for-profits can be found practically everywhere in America—rural communities, suburban communities, metropolitan areas, and inner-city neighborhoods. Founded to address unmet social needs in the broader community, most not-for-profits have a common willingness to find a way to meet the needs of their communities. Not-for-profits seek to provide outreach programs that deal with the most pressing—and often changing—social issues of a diverse population, including older adults, at-risk children and families, unmet needs in surrounding communities, and others who are facing challenges.

LeadingAge believes not-for-profit services are some of the best social services in the country because of their passion and commitment to the not-for-profit philosophy. This dedicated enthusiasm of not-for-profits has inspired boards of directors, attracted volunteers and devoted staffs, and led to groundbreaking innovations in the way we care for the elderly. A mission-driven philosophy of service with dignity and respect for the person is the inherent benefit the families, residents, and clients of not-for-profit senior living communities have found (whether independent living, assisted living, nursing care, memory support, or home and community-based services).

Many not-for-profit providers rose from modest beginnings more than a century ago into vital community resources today. In fact, listed in the LeadingAge Ziegler 200 rankings are nearly 50 organizations that were founded more than 100 years ago! These organizations continue to build legacies of caring, giving, and selflessness while expanding their capabilities and honing their skills -- striving to provide quality service for generations to come.

The LeadingAge Ziegler 200 (LZ 200)

The genesis of the LZ 200 research was to quench a thirst for answers related to the growth of not-for-profit systems. Ziegler had compiled extensive, but primarily anecdotal, information about not-for-profit senior living, gleaned through its experience in working with specific organizations. While useful, this information did not represent the not-for-profit senior living sector collectively. Ziegler had a host of questions it wished to answer for itself, its clients, and those interested in investing in the senior living sector, such as who are the largest senior living providers in the nation, how quickly are systems growing, and what trends are taking place with the type of growth.

By assembling and presenting the combined data and knowledge of LeadingAge and Ziegler, the LZ 200 publication answers many of these questions. From its inception, the creation of the LZ 200 was an innovative move for those involved with not-for-profit senior living. To our knowledge, listing the largest not-for-profit senior living systems by the number of units they own and operate, representing the number of residents they serve, rather than by their financial success, created a

new way of ordering systems, providing a fresh perspective on what was previously understood as a known market. The journey in creating and updating the LZ 200 annually has provided a wealth of data by which to understand and analyze the characteristics of senior living system providers' growth and change.

The organizations in the LZ 200 have made strategic decisions over the years, sometimes to expand to serve a broader community, while other times to dispose of communities and reposition a portfolio of properties and markets served. The LZ 200 is only the beginning of a profile of providers who are delivering services to the elderly community, both residential and home-based. Thousands of not-for-profit providers are playing an important role in the United States. We embrace each organization's contribution to the populations it serves. Regardless of an organization's size, not-for-profits are strong in numbers and bound by shared values.

Chapter 2

The Largest 200

A Quantitative Listing

LeadingAge and Ziegler are not the first to develop a listing of organizations or companies. Many common listings include qualitative factors, such as “best” or “worst” or “most successful.” Other listings are based on quantitative, objective measures alone. Following the footsteps of other well-known listings, the LZ 200 also uses a quantitative means of listing. The LZ 200 lists not-for-profit multi-site organizations based on the total number of senior living units (excluding government-subsidized [affordable] units) that each system owns and operates. The **Primary Ranking** is ranked by size—based on total units—carrying no qualitative value judgment in the ranking. Size does not connote quality, nor does it connote financial strength. Both LeadingAge and Ziegler want users of the data to see the LZ 200 as a statement of fact, not as an endorsement.

Methodology

Defining a Multi-site Organization

For the purposes of the LZ 200 listing and analyses, a multi-site organization, or system, is defined as a **LeadingAge-member not-for-**

profit organization that owns and operates senior living on more than

one campus. While it is understood that systems may also manage units they do not own, these managed, non-owned units are subject to frequent change and are therefore not included in the total unit count compiled in the LZ 200 **Primary Ranking.** However, we offer an examination of the extent to which the LZ 200 organizations manage units they do not own. (Chapter 4: Analysis of Data)

It is also understood that an organization may consider itself a system if they own, for example, a nursing home on one side of the street with independent living units on the other; or an organization may have multiple community types nearby and may market these communities independent of one another. While these types of organizations—with properties contiguous or in close proximity—were not considered systems in the first publication (2004), upon reconsideration we began to include them in subsequent publications (e.g., Willow Valley Communities [PA]).

It should be noted that systems composed primarily of government-subsidized (affordable) housing have been intentionally excluded from

the primary LZ 200 listing. Additional rankings of affordable housing providers are included in Chapter 6 of the report. In previous years, systems that were comprised primarily of acute or post-acute services or health care systems were also excluded. Beginning with the 2016 report, additional systems were included to reflect not-for-profit health systems that have a separate division, or ministry, with a distinct focus on operating as a senior living system. Two examples of such a system are Ascension Senior Living and Trinity Health Senior Communities.

Compiling the Listing

The LeadingAge Directory of Members was a critical source in compiling the first ranking in the 2004 publication. Using the list of multi-community sponsors in the directory, Ziegler compiled a listing of providers and ranked the list by each organization's total senior living units (excluding government-subsidized (affordable) housing units, which are, as mentioned earlier, ranked in a list of their own later in this publication).

For each organization, Ziegler attempted to trace its history of growth, starting with the date of inception. The pattern of growth for each system is created by recording the year in which change occurred—by expanding existing communities, building new communities, acquiring existing communities, or disposing of communities or units.

Websites, official statements from bond offerings, ratings reports, and marketing materials were consulted to determine these changes in the first publication. The LeadingAge membership database is a resource for compilation of the listing, as are other public resources, but subsequent publications have verified data through written confirmations by staff members of the organizations themselves.

Data used for ranking the 2019 LZ 200 were provided and confirmed (“confirmation”) by 177 of the 200 organizations. Eight confirmations were received from the “Over 200,” the organizations ranked from 201 to 211. Although the information used for the compilation of the LZ 200 was provided in the majority of cases by the organizations themselves, some organizations cannot trace their histories to the degree of accuracy preferred for the LZ 200 analyses. In such cases, historical information has been extrapolated and the current information validated. For those analyses where detail was unavailable, unit mix in prior years with uncertain histories was approximated based on the most recent current data mix. The LZ 200's listing can be tabulated by any one of the variables tracked for the systems. Again, in no way should readers construe the ranking in any of the categories as a measure of quality, value, or endorsement.

Key Findings

- ***An understanding of size*** ... The systems range from 20,513 units to 402 units.
- ***Information on unit mix*** ... The 10 largest providers of senior living represent nearly 30% of the total number of units for all systems in LZ 200.
- ***An appreciation of the rate of growth*** ... In the last 10 years, the average annual growth rate in total units was 2.8%, with independent living and assisted living growth each year, but a decline in the number of nursing care beds. Memory care units are becoming an increasingly important component of the annual unit counts, with 75% of the LZ 200 offering specialized memory care units.
- ***Insights into type of growth*** ... The LZ 200 have grown primarily through expansion within existing campuses. At the same time, organizations continue to dispose of dated nursing homes or financially stressed communities. Recent years have also seen an uptick in the number of organizations growing through affiliation, acquisition or merger.
- ***Home and community-based services*** ... Growth is also taking place in the form of home-based services, such as home health, home care, adult-day care, continuing care at home (CCaH) programs, and PACE (Program for All-Inclusive Care for the Elderly). Of the LZ 200, approximately 50% offer some type of home and community-based services to non-residents. This year, the CCaH model, is now offered by slightly more than 10% of the LZ 200 (2% less than last year).
- ***A glimpse of the geography*** ... The systems provide market-rate senior living in 48 states. Pennsylvania hosts the highest number of system headquarters in the LZ 200 with 29. Minnesota has the largest total number of communities, with 233.

- 
- **Technology** ... On average, nearly 75% of the LZ 200 communities owned use electronic point of care/point of service documentation systems, and nearly 75% use electronic health/medical records. Adoption is generally lower for health and wellness technologies, such as medication monitoring or telehealth remote monitoring; and care/case management and coordination reveals that 57.5% use this software. A category added in 2019, social connectedness/resident engagement, reveals that 49.5% use this technology.
 - **Joint Ventures and Partnerships** ... Slightly more than 30% of LZ 200 organizations are engaged in a formal joint venture, most commonly with another provider, a health system, or a home health/home care agency. This is slightly less than the 33% reported in 2017. Four out of 10 providers also indicated that they are engaged in a formal health care reform contract, whether it be an Accountable Care Organization (ACO) or a Bundled Payment Agreement (BPA). This figure has grown steadily over the past few years from roughly 24% in 2014 to 41% in 2018.

Chapter 3

The LZ 200 Not-for-Profit Multi-Site Senior Living Organization Rankings

Data can be ‘analyzed’ across a variety of time periods: one year, five years, 10 years, or more. The growth of some LZ 200 organizations may be most dramatic across a five-year period; others may have changed more across a 10-year period. However, nearly every listing of this sort focuses on annual change. Therefore, the **Primary Ranking** (Chart 3-1a) of the LZ 200 is by total senior living units with the 2019 and 2018 rank shown. (Charts 3-1b-d rank the organizations by market-rate independent living units, assisted living units, and nursing care beds). When the 2019 Rank is referenced in subsequent charts, this refers to the Primary Ranking of multi-site organizations.

Additionally, given the increase to the largest 200 in the 2018 publication, the “Over 200” connotes a different meaning than in previous years when the rankings ended at 100. The “Over 200” in the current publication represent organizations ranked 201 through 211 as of 12/31/2018.

The 2019 Rank column displays the numerical ranking of each system according to its 12/31/18 data within the LZ 200 for each of the four listings: 1) Total Senior Living Units, i.e., the **Primary Ranking** (Chart 3-1a); 2) Total Independent Living Units (Chart 3-1b); 3) Total Assisted Living Units (Chart 3-1c); and 4) Total Nursing Care Beds (Chart 3-1d). An organization’s ranking in each respective listing may change depending on the composition of its mix of independent living units to assisted living units to nursing care beds within its system of communities.

The 2018 Rank shows the numerical ranking of the listed organization in last year’s publication (according to its 12/31/17 data) listing of the same type. The organizations that show “**NR**” (Not Ranked) were not included in the LZ 200 rankings for 2018. Also note that with the increase to the largest 200 in the 2018 publication, the “Over 200” connotes a different meaning than in previous years when the rankings ended at 100. The “Over 200” in the current publication represent organizations ranked 201 through 217 as of 12/31/2018.

System Name. The **Primary Ranking** uses the system name at the time of the publication. The listings throughout identify organizations who have had name changes. These are displayed with the new name '**fka**' (formerly known as) or '**nka**' (now known as) and then previous name. See Chapter 4 for additional information on these specific organizations.

State. This field notes the location of the system's corporate headquarters. For example, Volunteers of America provides senior living in multiple states. The state shown for this organization is Virginia (VA), the location of its headquarters.

Units (as of 12/31/18). The systems listed in the 2019 LZ 200 are ranked by totaling the units owned by the system in each of three primary types of senior living as of 12/31/18. Managed communities that are not owned are discussed later in the publication (Chapter 4) and are not included in the total community count compiled in the LZ 200 **Primary Ranking**. Government-subsidized (affordable housing) units are also excluded from this count, but are presented for each of the LZ 200 organizations in subsequent listings (Chapter 6).

Total. The Total column is the sum of the units listed in each of the three different levels of care (described in more detail below). This total is the variable by which the LZ 200 is ranked for the **Primary Ranking**.

Independent living units (ILU) units may be composed of apartments, duplexes, triplexes, quadplexes, villas, or single-family homes. Typically, residents in independent living units pay a combination of a monthly fee and one-time entrance fee. (Note: some residents own these units, but this type of equity model represents a very small number of the independent living units within the LZ 200.) Those who pay a monthly fee will usually receive services such as housekeeping, maintenance, dining, security, and lawn maintenance.

Assisted living units (ALU) bridge the gap between independent living and nursing home care. Trained employees provide supportive care to residents who are unable to live independently and require assistance with activities of daily living (ADLs), including management of medications, bathing, dressing, toileting, ambulating, and eating.

Personal Care or Residential Care Units (PCU/RCU) are included in the overall ALU total for LZ 200 organizations. These units share similarities with ALUs but are not licensed as such.

Nursing care beds (NCB) provide care for those who need rehabilitative care or can no longer live independently because of a chronic physical or mental condition that requires round-the-clock nursing care. Meals, laundry, housekeeping, and medical services are provided. In most cases, these units are licensed for Medicaid and/or Medicare reimbursement.

Many of the not-for-profit organizations have combined independent living, nursing, and/or assisted living on one campus. These campuses are typically called continuing care retirement communities, or Life Plan Communities (LPCs) (described in more detail below). Most of the organizations in the LZ 200 have Life Plan Communities within their portfolios; however, for purposes of unit rankings, the units within Life Plan Communities are counted by level of care.

Communities (as of 12/31/18). Over the years, various terms have been used to describe a senior living property: site, location, facility, campus, and community. A high rise on a limited acreage parcel does not fit the term “campus.” A scattering of buildings, offering various levels of care, across extended acreage does not fit the term “facility.” We believe the best all-encompassing word to use is “community.” The communities examined are life plan communities (**LPC**), independent living communities (**IL**), assisted living communities (**AL**), and nursing homes (**NH**). It is important to note that a single Life Plan Community may include ILU (independent living units), and/or ALU (assisted living units), and/or NCB (nursing care beds), but will contain at least independent living and nursing care. The Life Plan Community’s resident payment plans may

include entrance fees, condo/co-op, and/or rental programs. Generally the majority of the Life Plan Community’s units are not NCB. The systems listed in the LZ 200 are ranked by totaling the communities owned by the system in these four key areas: LPCs, IL, AL, and NH.

The Over 200. The LZ 200 stops at the 200th largest not-for-profit system, leaving some senior living systems just beyond the list’s cut-off. The “Over 200” is a listing of the systems tracked by Ziegler and sorted alphabetically and determined by size.

Chapter 4

Analysis of the Data

The LeadingAge Ziegler 200 are examined through categories, including: total units, total communities, geographic coverage, location, ratings, accreditation, number of employees, affiliations, founding dates, provision of government-subsidized (affordable) housing, and the provision of home and community-based services. The two prior year's publications also added items regarding technology adoption, the existence of a foundation within the organization, and a deeper dive into future growth plans for various models of home and community-based care.

Units

The first analysis of the 2019 LZ 200 provides a side-by-side comparison of the unit mix for 2018 compared to 2017 for each of the organizations. The 2019 LZ 200 organizations own nearly 300,000 market-rate senior living units. By breaking the data into the largest 10, 25, 50, 100, and 150 (Chart 4-1c), it is evident that the ratio of units held by the largest 50 compared with the percentage of total units in the LZ 200 is not balanced, (e.g., the largest 50 systems hold roughly 60% of the total units). The 10 largest systems own nearly 30% of the total LZ 200 units. The average system within the 2019 LZ

200 reported nearly 1,510 units in 2018 (Chart 4-1b). Approximately 45% of the 2019 LZ 200's total communities are Life Plan Communities, with the remaining 56% evenly divided between stand-alone ILs, ALs, and NHs.

Summary of Not-for-Profit Units. These columns show the total number of units, followed by a breakdown of this total by level of care for each system. The first set of columns show the unit mix as of 12/31/18. The second set of columns show the unit mix as of 12/31/17.

Change in Total Units from 2017 to 2018. This column provides the change in the listed organization's TOTAL market-rate units (all levels of care) between year-end 2018 and year-end 2017.

Section 4-1b provides two examinations of three-year comparisons of the LZ 200 organizations. The first table details the total number of units by level of care among the largest 10, 25, 50, 100, 150, and 200 organizations. The percentage of total units is detailed in 4-1b as well as 4-1c. This section also examines the unit mix between each of the three years' listings (e.g., the unit mix of the 2016 LZ 150 compared to the unit mix of the 2017 LZ 150 and the unit mix of the 2018 LZ 200, compared to the unit mix of the 2019 LZ 200). Chart 4-1d provides a more graphic illustration of the type of change occurring in the LZ 200.

For all the year-over-year comparisons made in 4.1b-4.1e, note the increase to 150 and 200 as part of the 2014, 2015, 2016, 2017, and 2018 publications. In some instances, two figures are calculated for the current publication, one that reflects the largest 100, 150, and allows for consistent year-over-year comparisons, and one that reflects the figures for the full 200 listing.

Communities

The unit analysis presented in Chart 4-1a is followed by a side-by-side comparison in Chart 4-2a of the community portfolios of the 2019 LZ 200 for 2018 compared to their portfolios at the end of 2017.

Summary of Not-for-Profit Communities. Community, as noted earlier, is the term used to refer to any type of community owned by the LZ 200, whether stand-alone nursing home (NH), assisted living community (AL), independent living community (IL), or Life Plan Community (LPC). Again, government-subsidized (affordable) housing properties are excluded from the count of communities shown for the LZ 200 (these properties are examined in Chapter 6). The first set of columns in Chart 4-2a shows the communities owned, by type, as of 12/31/18. The second set of columns shows the communities owned, by type, as of 12/31/17.

Change in Total Communities from 2017 to 2018. This column provides the change in the listed organization's TOTAL communities (all types, excluding

affordable housing and managed) between year-end 2017 and year-end 2018. Chart 4-2b provides two examinations of three-year comparisons of the LZ 200 organizations. The first half of the chart examines the community holdings between each of the three years' LZ 150 listings (e.g., the types of communities owned by the 2016 LZ 150, and 2017 LZ 150 compared to types of communities owned by the 2018 LZ 200, compared to the types of communities owned by the 2019 LZ 200). As with the year-over-year unit comparisons, in some instances, two figures are calculated for the current publication, one that reflects the largest 150 and allows for consistent year-over-year comparisons, and one that reflects the figures for the full 200 listing.

Affordable Housing

The ranking of the LZ 200 organizations by the number of affordable (non-market-rate) units is included with this research to show that several of the LZ 200 have a strong commitment to the provision of this type of senior living. This ranking may allow senior management and others the opportunity to compare their organizations with other organizations that are providing services to a full spectrum of income levels. Section 4-15 and Chapter 6 detail these listings. The data reveal that among the LZ 200, 50% have affordable housing units.

Organizational Characteristics: System Headquarters *States with Largest Number of Headquarters' Locations*

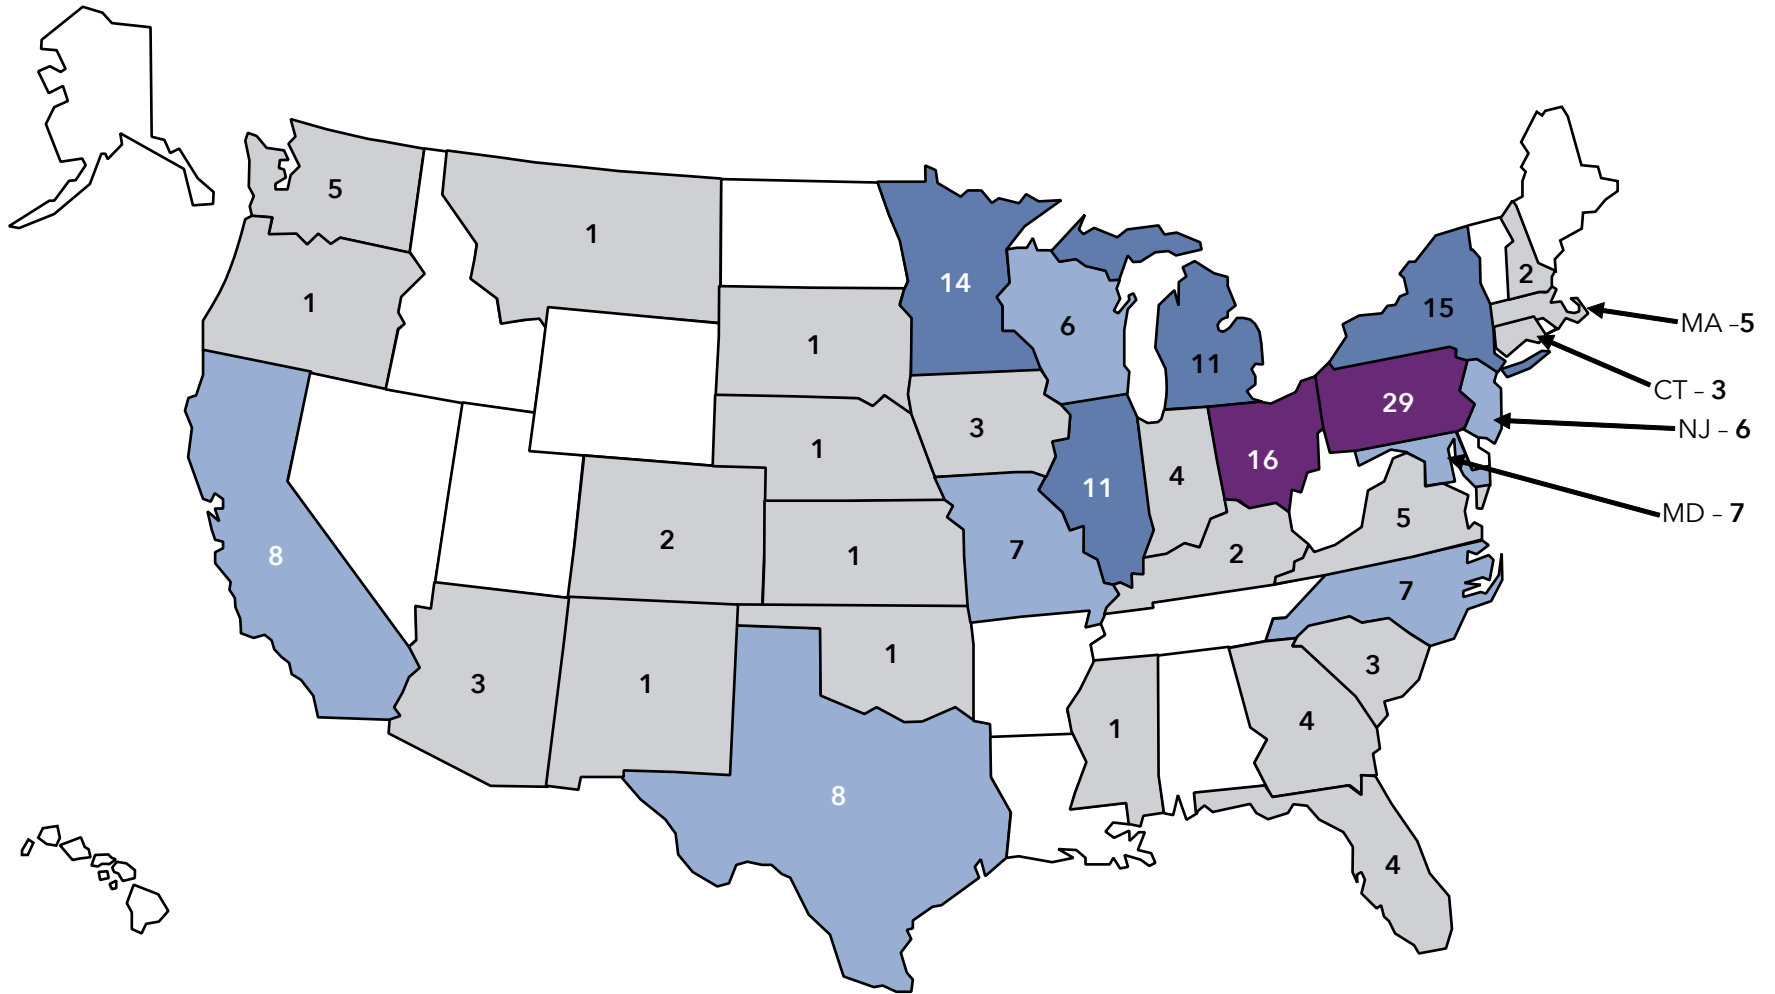

System Headquarters

The state shown for each of the LZ 200 indicates the location of their headquarters. Pennsylvania is home to more LZ 200 headquarters than any other state, more than twice as many as the next leading states of Ohio, New York, Minnesota, Michigan, and Illinois. Five of Pennsylvania's multi-site headquarters are among the largest 25.

Headquarters' Locations

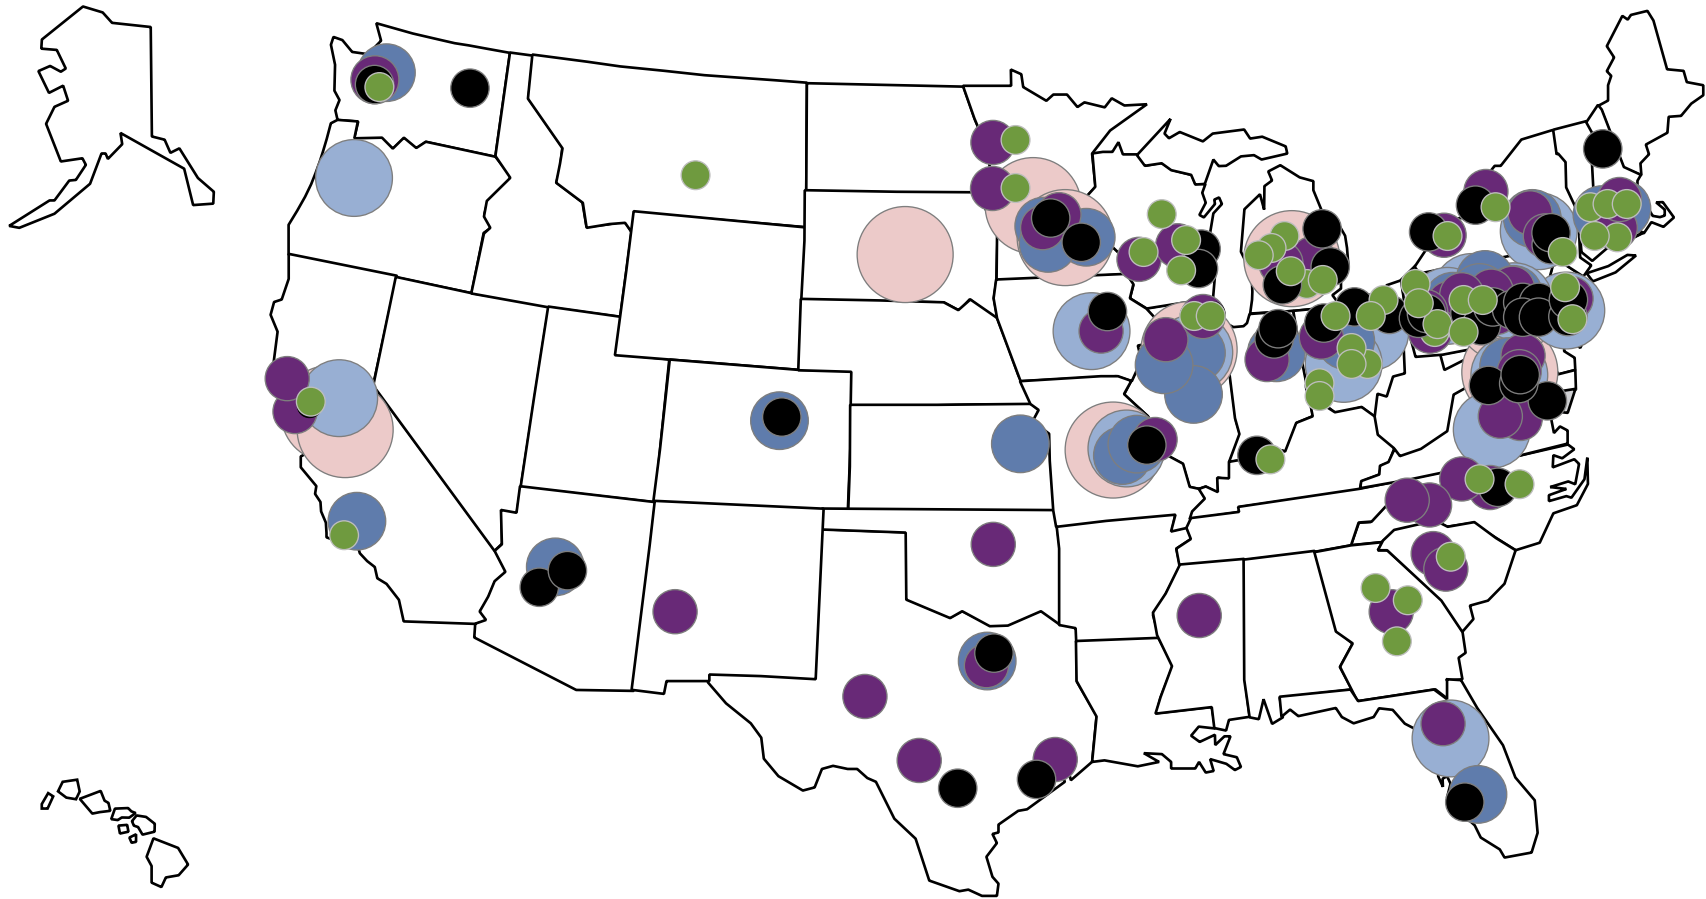

KEY:

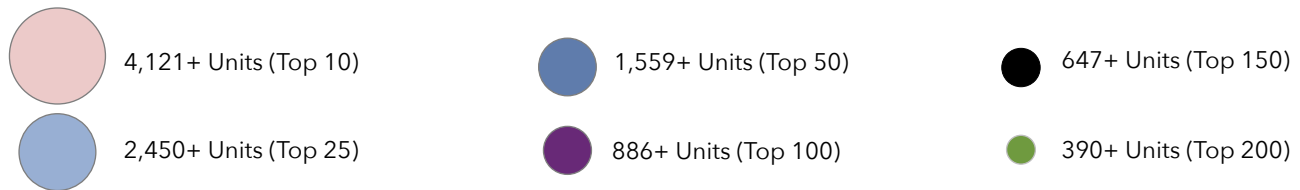

Organizational Characteristics: System Headquarters

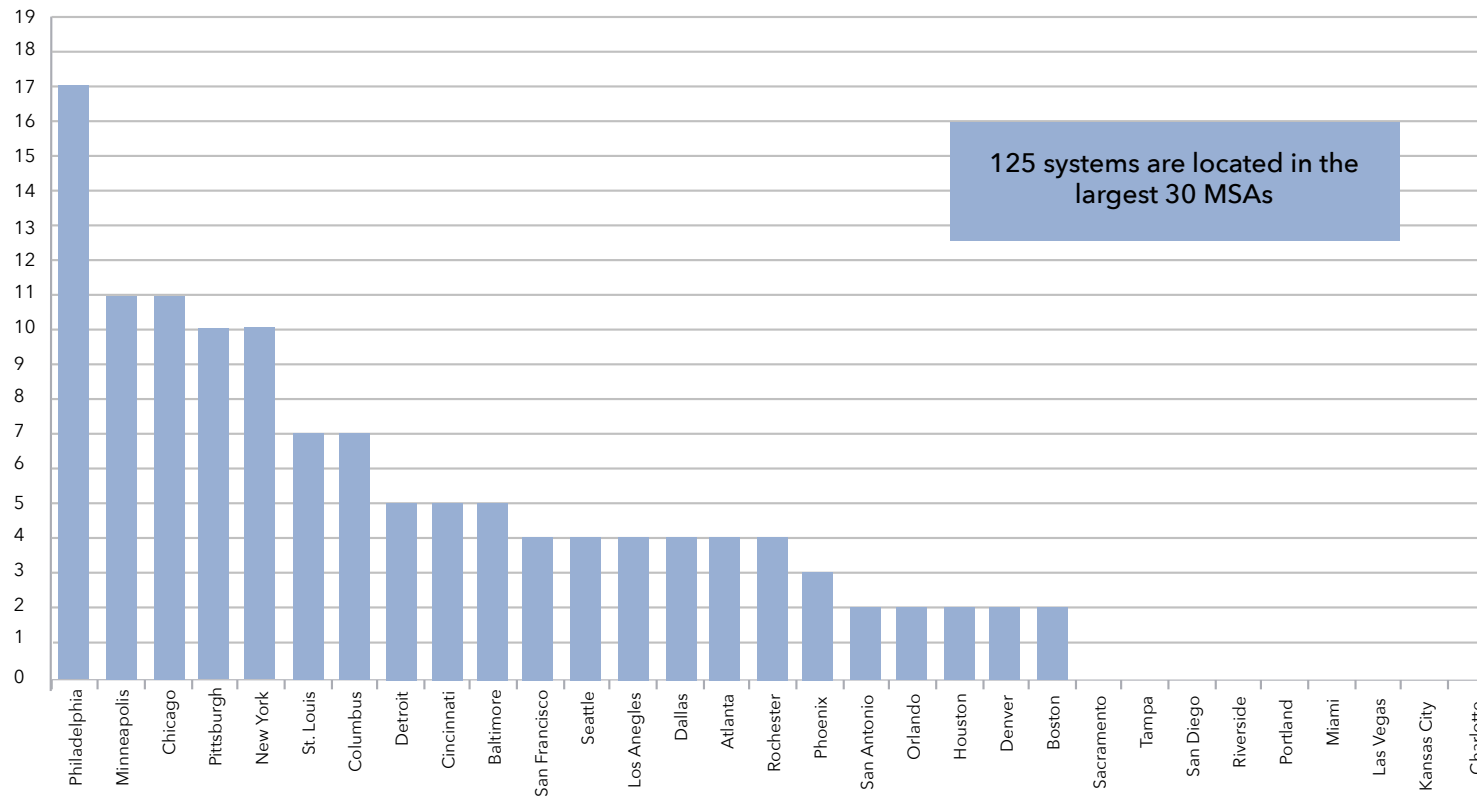

Headquarters' Locations by Size

KEY:

Organizational Characteristics: Metropolitan Statistical Areas (MSAs) Number of Headquarters Located in the Largest 30 MSAs

Metropolitan Statistical Areas (MSAs)

Metropolitan Statistical Areas (MSAs) are defined by the Office of Management and Budget (OMB) for purposes of tabulating statistics on clearly defined metropolitan boundaries. These boundaries are based on 2018 data from the U.S. Census Bureau. Areas are identified by county, with several counties making up a MSA. The locations of the communities owned by LZ 200 organizations in the largest 30 MSAs are charted, showing the number and type of communities within each of the MSAs.

Organizational Characteristics: Geographic Classifications

Classifications

A multi-site's geographic market area, what the LZ 200 listing terms its primary classification, offers a descriptive glimpse of the location of the multi-site's senior living properties. A multi-site's primary classification describes the market area that includes ALL its properties, regardless of type (including government-subsidized senior living). For some, the market area may be established by implicit boundaries, due to regulatory constraints or even due to the system's own name. Some multi-sites may change their names to more accurately reflect new growth strategies.

The LZ 200 are classified by their primary markets according to eight categories. Definitions and examples of the eight market categories are listed below:

- **National.** Systems whose properties are located among multiple states in more than one region of the United States. Several of the national systems focus their operations either west or east of the Mississippi River or Rocky Mountains. A few of the national systems have an abundance of properties broadly scattered across the country, for example:

 - Pacific Retirement Services, Inc. (LZ 200 #20) – a national system with a disparate geographic distribution of its communities with locations primarily on the West Coast, but two communities in Wisconsin and one in Texas. Retirement Housing Foundation (LZ 200 #10) is a national system with communities in multiple states across the country.
- **Across States.** Systems whose communities are located among multiple states, primarily in one region of the United States. Example: Acts Retirement Services (LZ 200 #3) is classified as an across states system with a focus in the Northeast, Mid-Atlantic, and Southeast U.S.
- **Tri-state.** Systems whose communities are located across three states, typically contiguous. Example: Presbyterian Senior Living (LZ 200 #15) has communities located in Delaware, Ohio, and Pennsylvania.
- **Bi-state.** Systems whose communities are located across two states, typically contiguous. Example: Springpoint Senior Living (LZ 200 #24) had all of its communities within New Jersey as of year-end 2016. In 2017, another organization affiliated with Springpoint, which now puts Springpoint communities in both New Jersey and Delaware, a Bi-state designation.

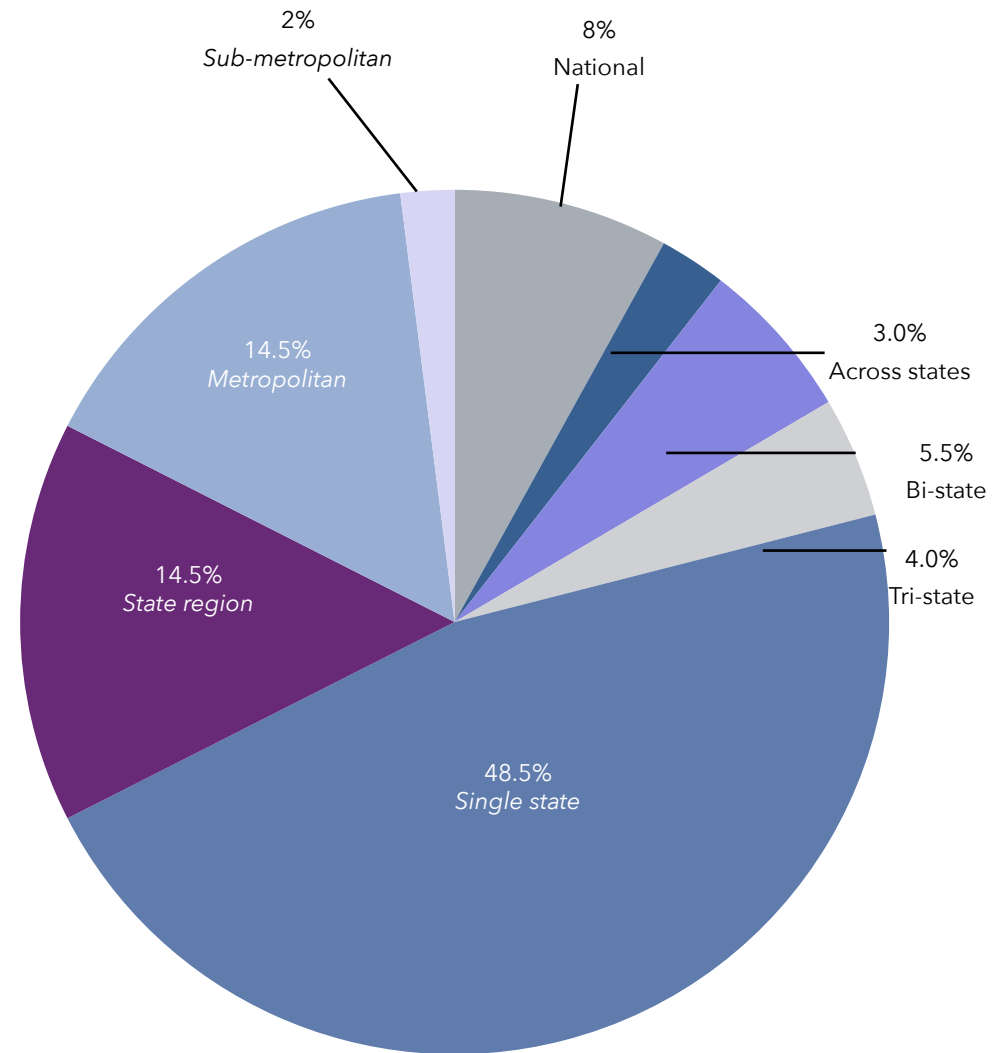

Organizational Characteristics: Geographic Classifications (Continued)

- **Single State.** Systems whose communities are contained within a single state's borders and are spread across the state. Example: SantaFe Senior Living (LZ 200 #59)—multiple communities within Florida, spread across the state (from southeast Florida to north central Florida, east and west).
- **State Region.** Systems whose communities are contained within a single region within a single state's borders. Example: WesleyLife (LZ 200 #44)—multiple communities centrally concentrated in Iowa.
- **Metropolitan.** Systems whose communities are contained within a metropolitan area. Example: Presby's Inspired Life (LZ 200 #100)—multiple communities throughout the greater Philadelphia, Pennsylvania area.
- **Sub-metropolitan.** Systems whose communities are contained within a sub-section of a metropolitan area. The larger the metropolitan area, the more likely the possibility that a multi-site may emerge within a sub-metropolitan area. Example: The communities of Goodwin House Incorporated (LZ 200 #106) are in the southwestern quadrant of the DC-Arlington metropolitan area.

Organizational Characteristics: Geographic Classifications

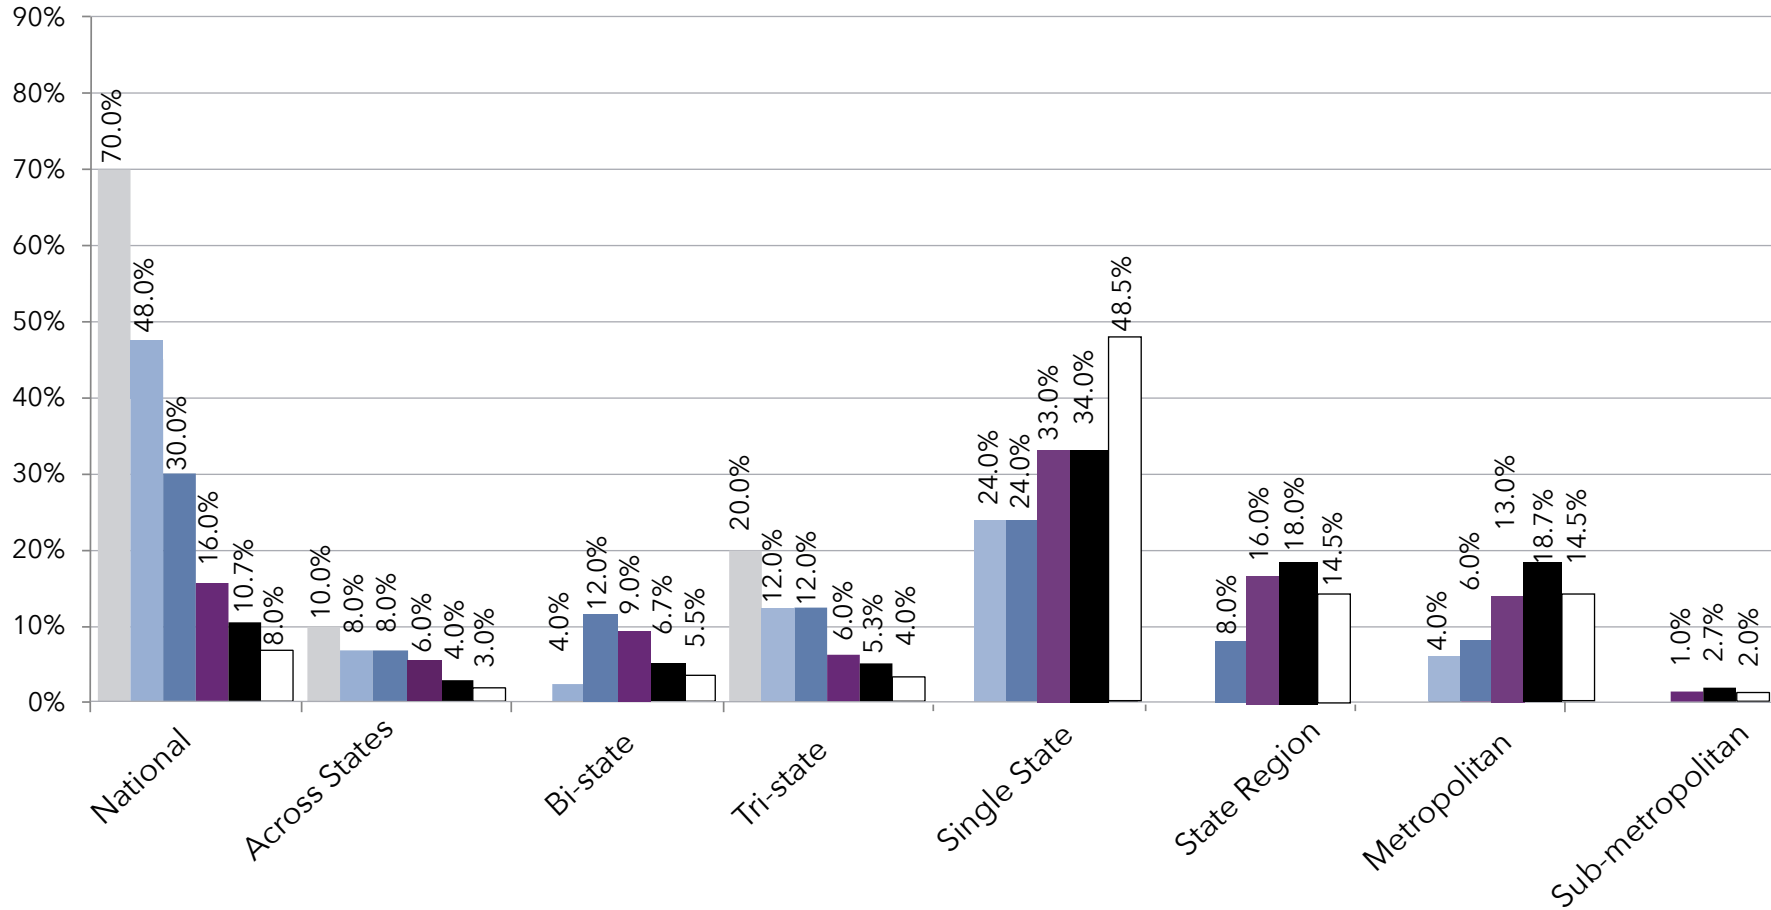

Primary Classifications

Chart 4-6a shows that a large majority, nearly 80%, of the LZ 200 organizations operate within a single state's boundaries (Single State, State Region, Metropolitan or Sub-metropolitan). Generally, a multi-site moves gradually from single state, to bi-state, to tri-state, and then to a national multi-site. For example, Augustana Care Corporation operated in the Minneapolis area for most of its existence. In the 2000s, it added communities in other areas of Minnesota. In 2011, it expanded to Colorado; and as of 2018 has affiliated with Elim Care (MN) (which operates in Minnesota and North Dakota), to become Cassia (LZ 200 #13). National multi-sites are 8.0% of the LZ 200 and tend to be among the largest of the LZ 200 organizations; however, as noted earlier, a smaller percentage of these national multi-sites have communities that are broadly spread across the country.

Analysis of the Data: Classifications

Secondary Classifications

A multi-site may have a secondary market, as well. For example, bi-state multi-site Lutheran Senior Services (LZ 200 #14) has a secondary metropolitan market in St. Louis. The secondary classification provides a snapshot of a system's geographic concentration of communities. More than 65 of the LZ 200 systems have such a market concentration.

Organizational Characteristics: Corporate Name Changes in 2018

Corporate Name Changes

An ongoing trend among senior living organizations throughout the country, is that of changing the name of the organization to better reflect the services provided. Section 4-7 lists the 2018 name changes.

2018 Rank	Current System Name	Logo	Previous System Name
13	Cassia		Augustana Care/Elim Care
23	Otterbein SeniorLife		Otterbein Senior Lifestyle Choices
93	Sequoia Living		Northern California Presbyterian Homes & Services
95	Wesley		Wesley Homes
111	Lutheran Social Ministries of Maryland		Carroll Lutheran Village
180	Avinity		Twin Cities City Christian Homes
198	Parker Health Group, Inc.		Francis E. Parker Memorial Home, Inc.
200	SCBMA		South Carolina Baptist Ministries of Aging

Organizational Characteristics: Debt Ratings

Rated Debt as of 12/31/2018

Ratings

There are currently three rating agencies that rate senior living debt: Moody's, Standard & Poor's, and Fitch Ratings, two of which, Standard & Poor's and Fitch Ratings, are currently active. A listing of multi-site organizations with debt rated by Standard & Poor's or Fitch Ratings is shown in Chart 4-8a. A multi-site with an "NR" shown as an agency's rating means that the multi-site did not have its debt rated by that agency as of 12/31/18. Of the LZ 200 organizations, 58% have outstanding debt rated by Fitch Ratings and/or Standard & Poor's. Chart 4-8b presents the categories of each of the ratings, showing that the majority, 52%, of the ratings for LZ 200 organizations fall in the "BBB" category (that is, with ratings of "BBB+," "BBB," or "BBB-").

Analysis of the Data: Revenue

Annual Revenue by Organization

Revenues

Several years ago, the LZ 200 publication began capturing the type of revenue generated by each respective organization. As an additional means of evaluating the size of each organization, in addition to the total number of units and communities, overall revenue was also surveyed. Most of the organizations provided this information. To avoid detailing each organization's total revenue for fiscal year 2018, organizations were grouped into tiers based on their overall revenue. The largest LZ 200 organizations have revenues beyond \$200 million (27 organizations). The largest number of LZ 200 organizations fall within the Tier III category, which reflects annual revenue between \$50 million and \$99 million. Section 4-9 details the revenue statistics.

	Number of LZ 200 Organizations	% of Total LZ 200
Tier I: > \$200 million	27	16.3%
Tier II: \$100-\$199 million	29	17.5%
Tier III: \$50-\$99 million	64	38.6%
Tier IV: \$25-\$49 million	42	25.3%
Tier V: < \$25 million	4	2.4%

Organizational Characteristics: Accreditation

Accredited Communities

Accreditation

For senior living organizations, accreditation may be sought through several accrediting bodies, but LPC accreditation is granted only through CARF. CARF accredits LPCs and aging services networks that are part of home, community or hospital-based systems; sites under a corporate organization; and other types of providers. Accreditation is a voluntary program that fosters an independent, equitable and objective evaluation process by an outside organization. An accredited organization is one that has been evaluated and meets internationally recognizable standards. Professionals conduct on-site surveys determining the degree to which an organization meets these standards.

The listing of LZ 200 with organizations that have obtained CARF, JCAHO (Joint Commission on the Accreditation of Healthcare Organizations), or EAGLE (Educational Assessment Guidelines Leading toward Excellence) accreditation is shown in Chart 4-11 a-b. A total of 170 communities within the LZ 200 are accredited through CARF; 50 have sought accreditation through JCAHO, and an additional 36 are accredited through EAGLE.

Analysis of the Data: Staffing

Summary of Employees, 2010-2018

Staffing

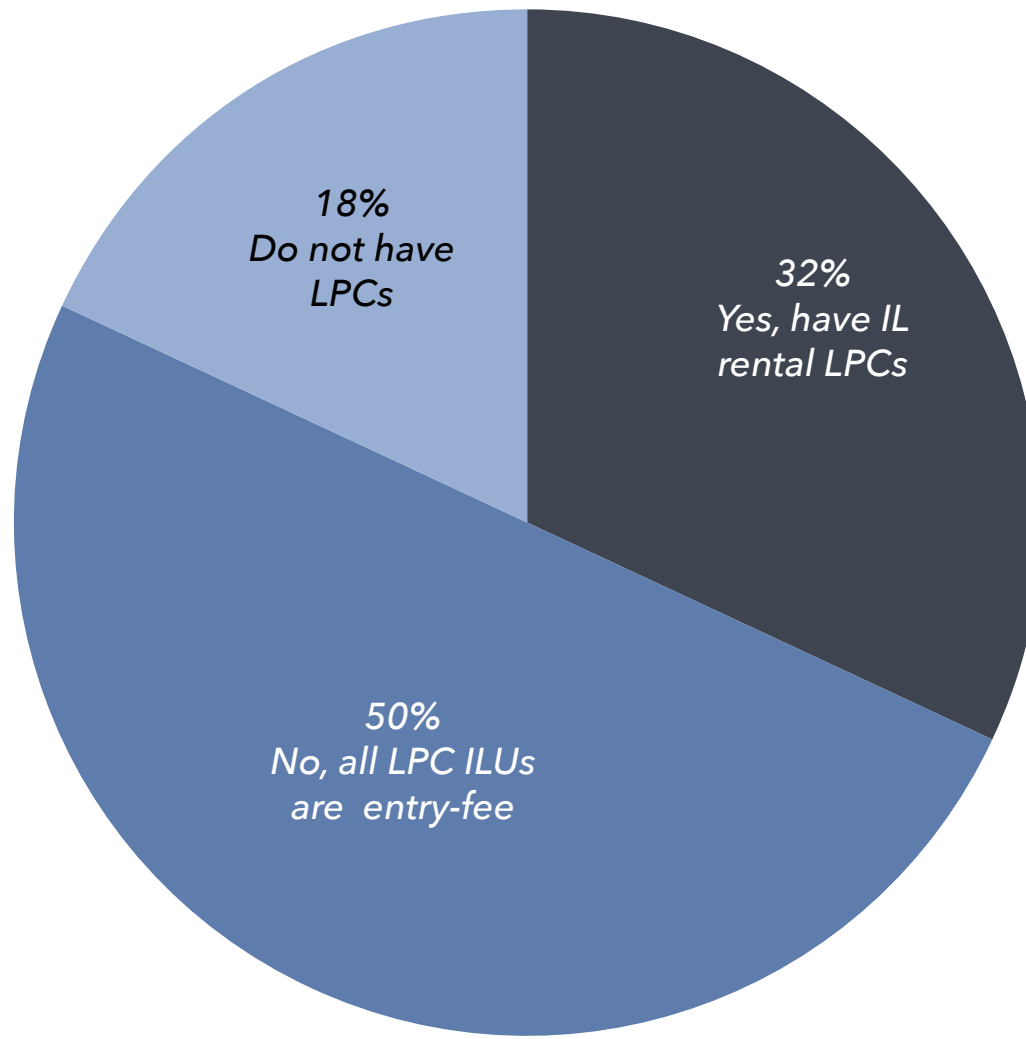

The LZ 200 analysis includes an examination of the number of full-time equivalents (FTEs) each organization employs. An average of 1,103 FTEs were employed per organization throughout 2018. Note that the number of FTEs decreased in the 2018 publication with the expansion to the largest 200 organizations as the size of the organizations get smaller the further above the 150 ranking.

Analysis for 2018 LZ 200 by Year		
Year	Average Number of FTEs	Average FTE/Resident

Analysis of the Data: Affiliations

Affiliation by Total Number of Systems

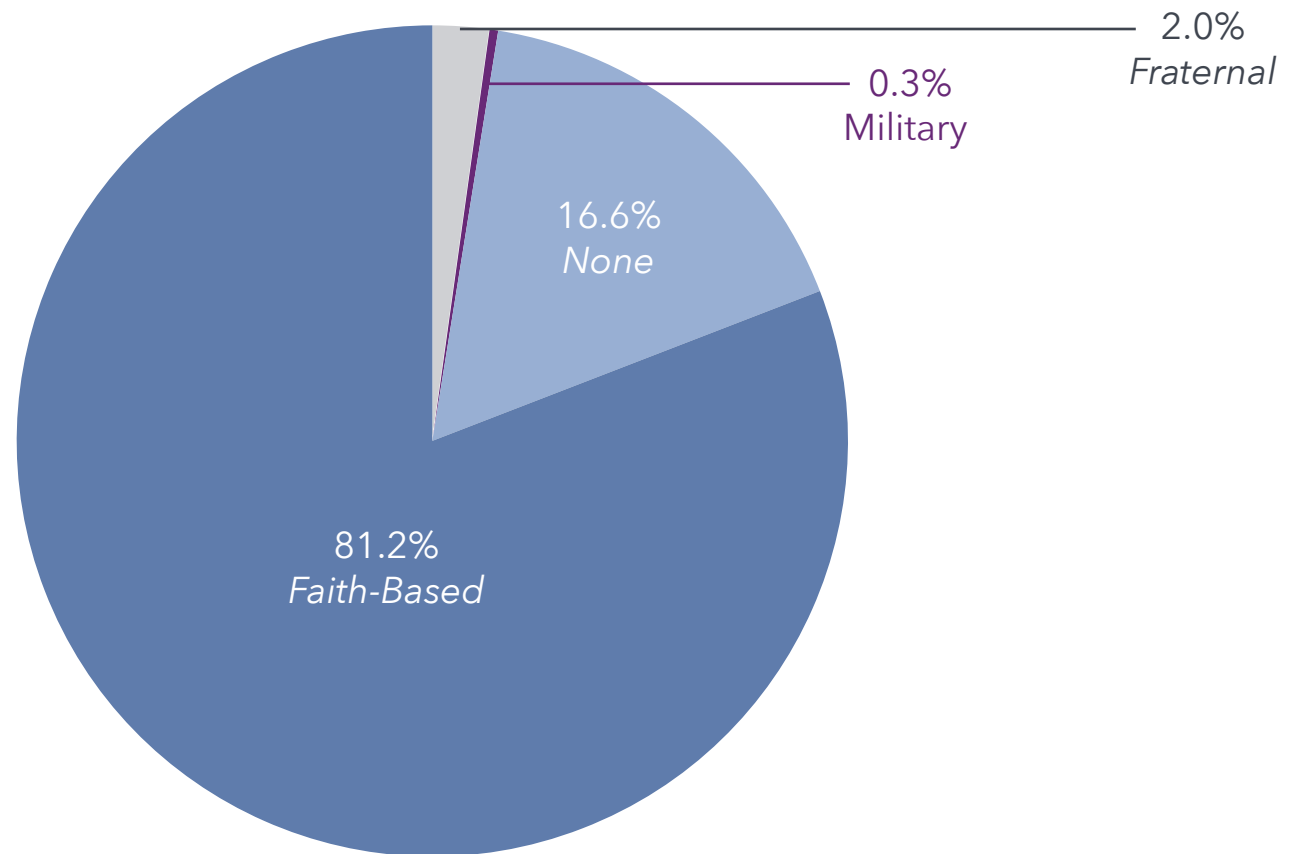

Affiliation

Eighty-two percent (82%) of the LZ 200 organizations have an affiliation with a religious organization, predominantly Lutheran, Presbyterian, and Catholic, or a fraternal or military group (Chart 4-14a). Lutheran organizations represent the largest number, with nearly 50,000 units. Presbyterian affiliation follows with nearly 40,000 units.

Organizational Characteristics: Affordable Housing

Comparison of Market-Rate Units Vs. Affordable Units of Housing Providers

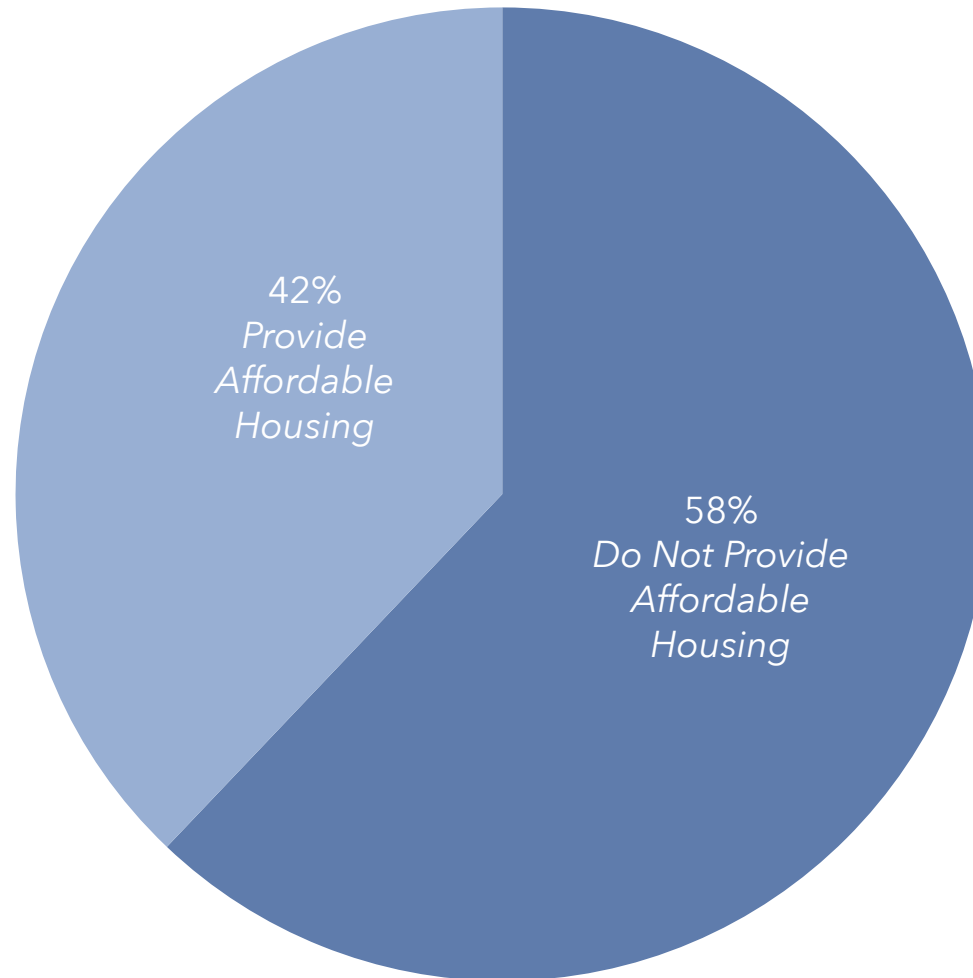

Affordable Housing

The ranking of the LZ 200 organizations by the number of affordable (non-market-rate) units is included with this research to show that several the LZ 200 have a strong commitment to the provision of this type of senior living. This ranking may allow senior management and others the opportunity to compare their organizations with other organizations that are providing services to a full spectrum of income levels. Section 4-15 and Chapter 6 detail these listings further. The data reveal that among the LZ 200, nearly half (42%) have affordable housing units, but the overwhelming portion of their portfolio of units is owned.

Organizational Characteristics: Managed Units & Communities

Comparison of Owned vs. Managed Communities and Units of Providers that Manage

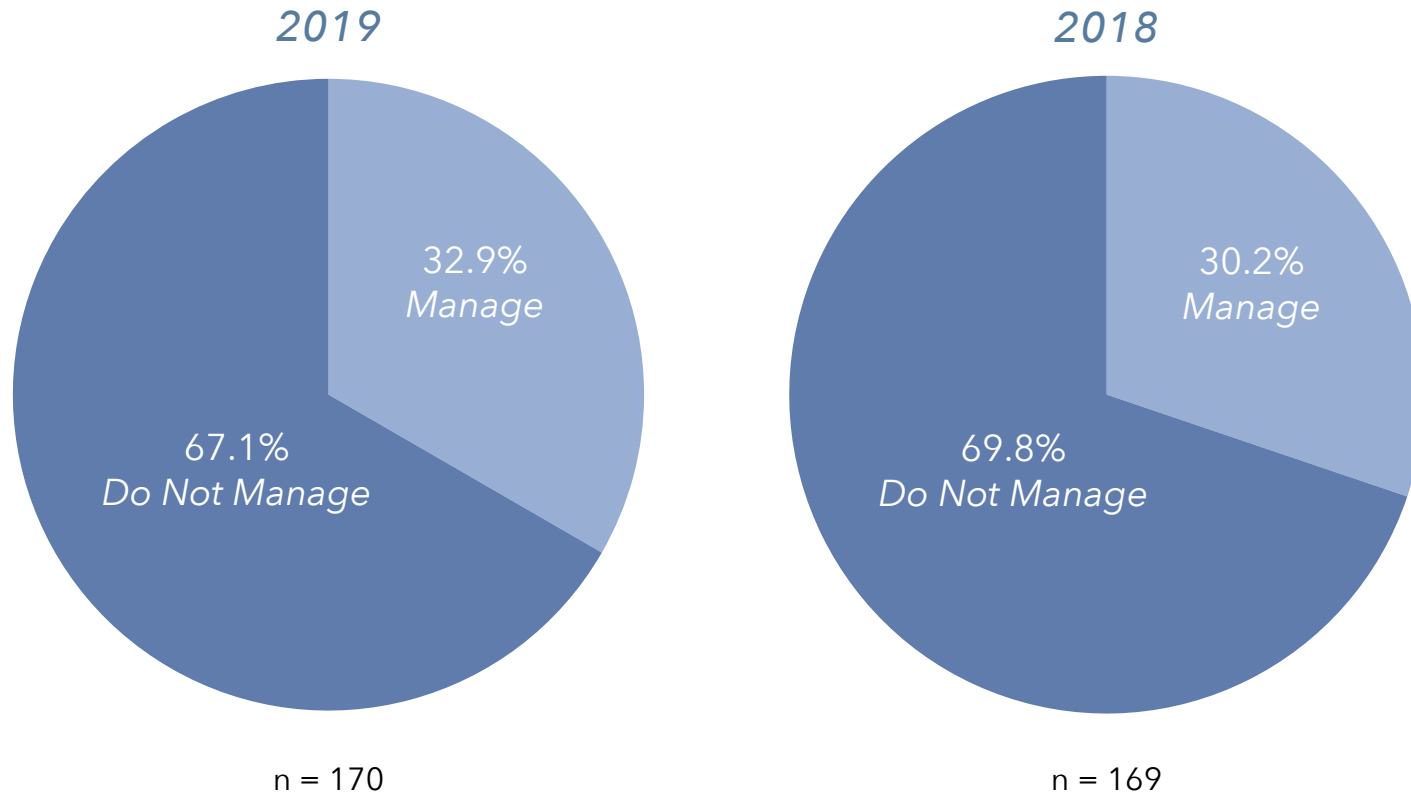

2019

2018

Organizational Characteristics: Managed *Percentage that Manage 2018 Versus 2019*

Managed Units and Communities

There are several companies in the senior living sector whose primary business purpose is to provide management services to properties they do not own. The LZ 200 organizations are, in contrast, primarily property owners. More than 30% of the LZ 200 manage and own senior living units (Chart 4-16c), but the overwhelming portion of their portfolio of units is owned.

MGD - Managed unit counts include both managed market-rate and managed affordable units

Organizational Characteristics: Assisted and Skilled Composition Percentage That Offer Private Versus Semi-Private Units

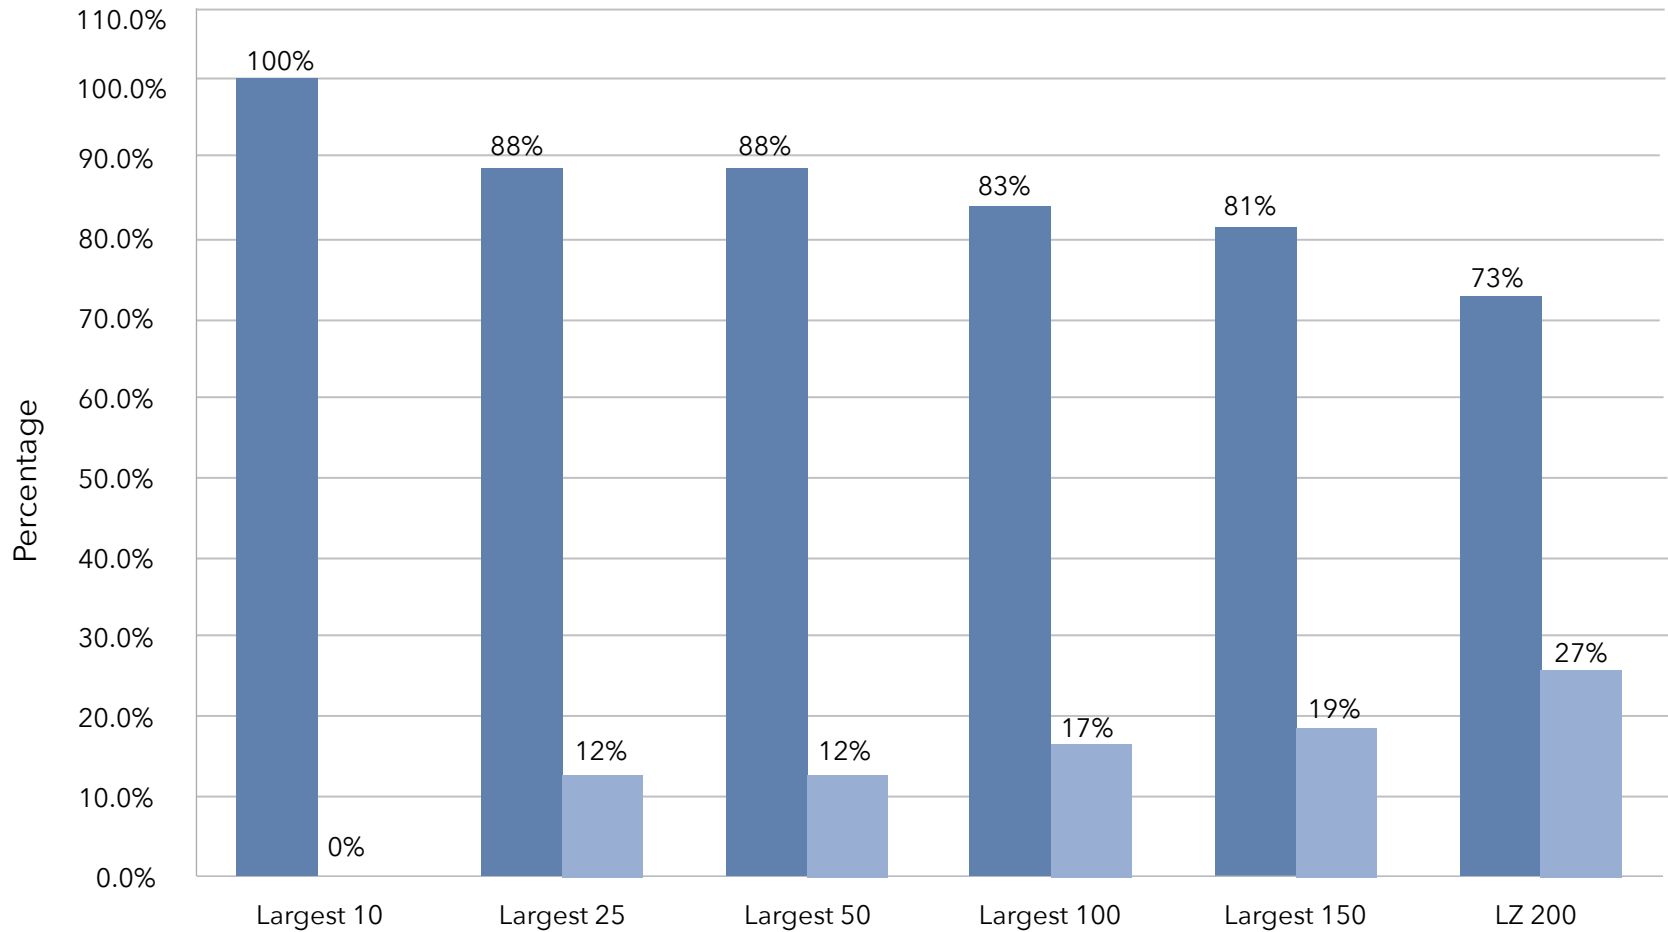

Assisted and Skilled Composition

In the last four years, this report has tracked the proportion of assisted living and skilled nursing units that are private versus semi-private. There is a clear trend toward private assisted living units, with 73% being private. On the other hand, the skilled nursing units are (55%/45%) between semi-private and private.

This year's publication is the ninth in which the percentage of LZ 200 organizations that own and operate memory support (MS) units is analyzed. Section 4-17 details the percentage of LZ 200, by the largest 10, 25, 50, 100, 150, and 200, that offer specialized memory support units. Roughly 73% of the organizations offer memory support, with more than 32% offering both assisted living and skilled nursing memory care services. An additional 33% offer only assisted living memory support.

Organizational Characteristics: Home & Community-Based Services Percentage Offering HCBS to Non-Residents

Home and Community-Based Services (HCBS)

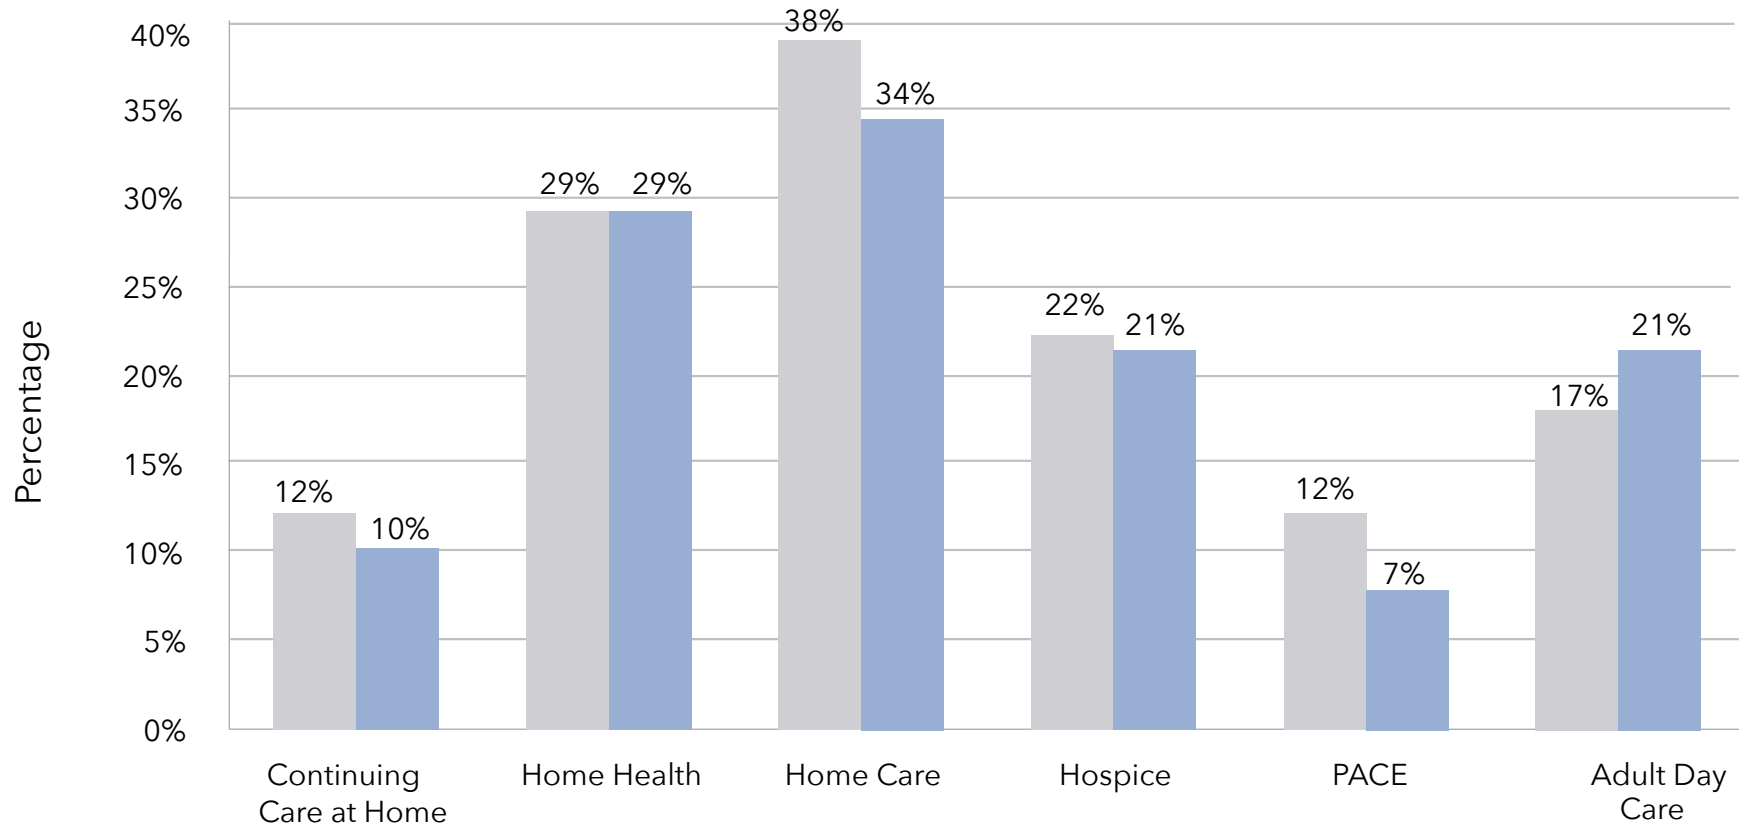

This year's survey gathered overall feedback on the percentage of providers offering home and community-based services, and specifically drilled down into Continuing Care at Home (CCaH), Program of All-Inclusive Care for the Elderly (PACE), and hospice services for individuals in the greater community. Overall, 70% of the LZ 200 organizations offer home and community-based services to non-residents. CCaH, a model that grew in popularity several years ago, is offered by 10% of the LZ 200. Approximately seven percent (7%) have PACE programs, and hospice services are being provided by 21%.

Technology

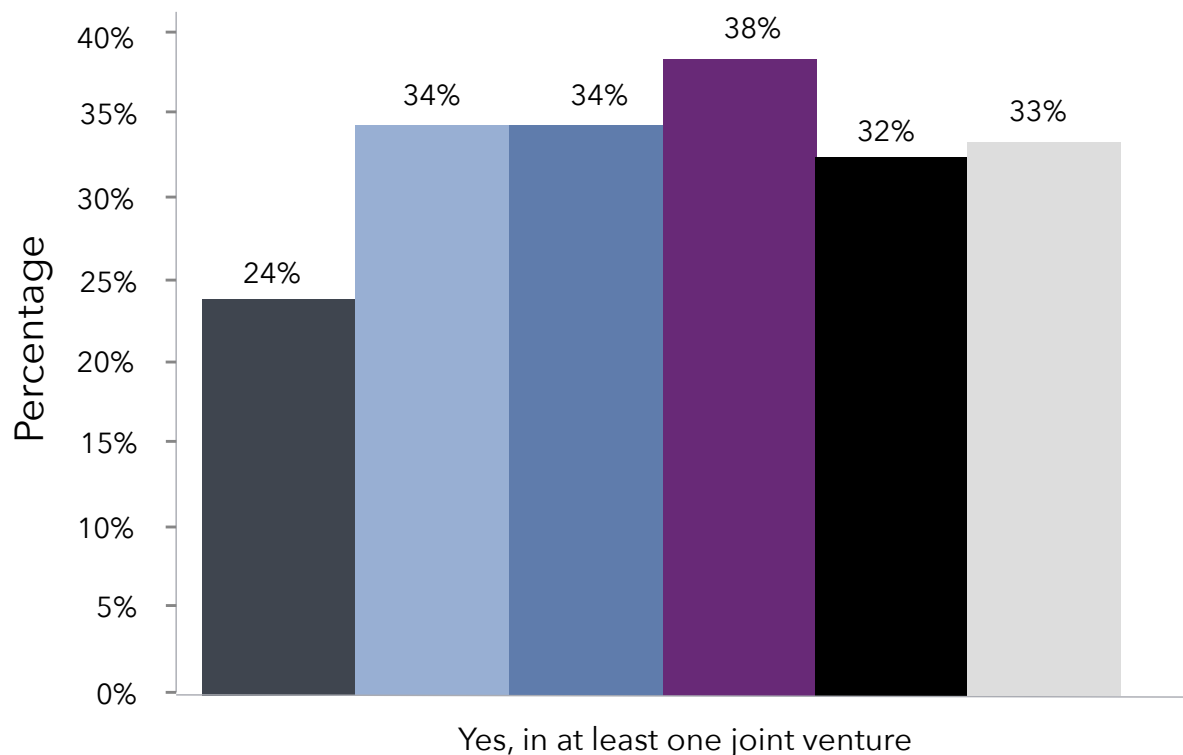

Beginning with the 2013 LZ 100, information was gathered regarding the adoption of various aging-related technologies. The technology findings are integrated into section 4-19. The majority of LZ 200 organizations, nearly 75% respectively, reported adopting User-Activated Emergency Response Systems and Access Control/Wander Management Systems. Additional detailed findings are reported throughout that section. Data was once again gathered this year for single-site organizations. Chapter 6 reveals the proportion of single-site organizations who have adopted various technologies.

Organizational Characteristics: Joint Ventures

Percentage Engaged in a Joint Venture

Joint Ventures

In-line with trending around partnerships and collaboration, the publication explores the number of LZ 200 organizations that are engaged in joint ventures, Accountable Care Organization (ACO), or bundled payment agreements. Slightly more than one-third of the LZ 200 organizations reported being in a joint venture, most commonly, with another not-for-profit organization, a hospital/health system or a home health/home care agency. Slightly more than 40% of the organizations are in a formal ACO or bundled payment contract for formal health care reform.

Chapter 5

Growth and Change

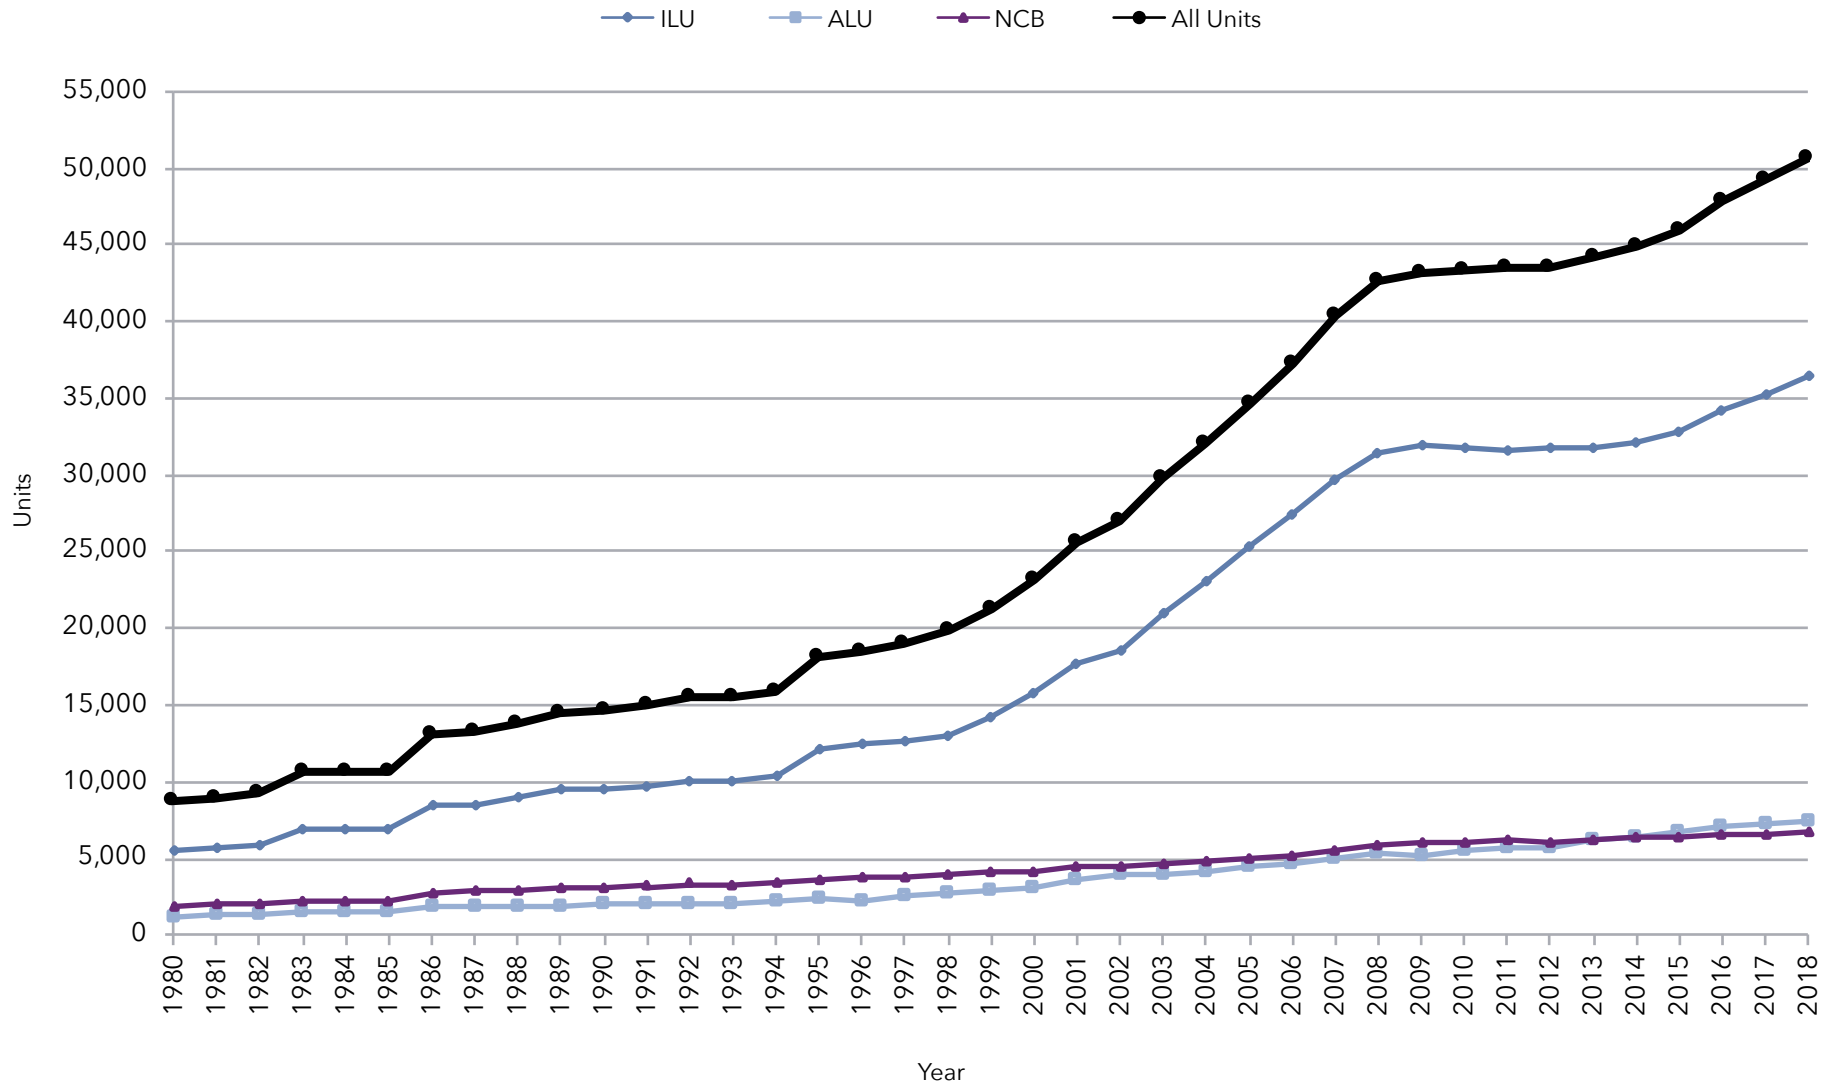

This section is focused on the ways the LZ 200 have grown and changed throughout their histories. The prior three year's Largest 10 providers included three new multi-sites: Benedictine Health, Ascension Senior Living, and Trinity Senior Living Communities. Due to incomplete data for these organizations to the new list, the historical pace of growth charts were excluded from this year's publication.

Growth: Growth of Largest 10 Systems

Pace of Growth: The Largest 25

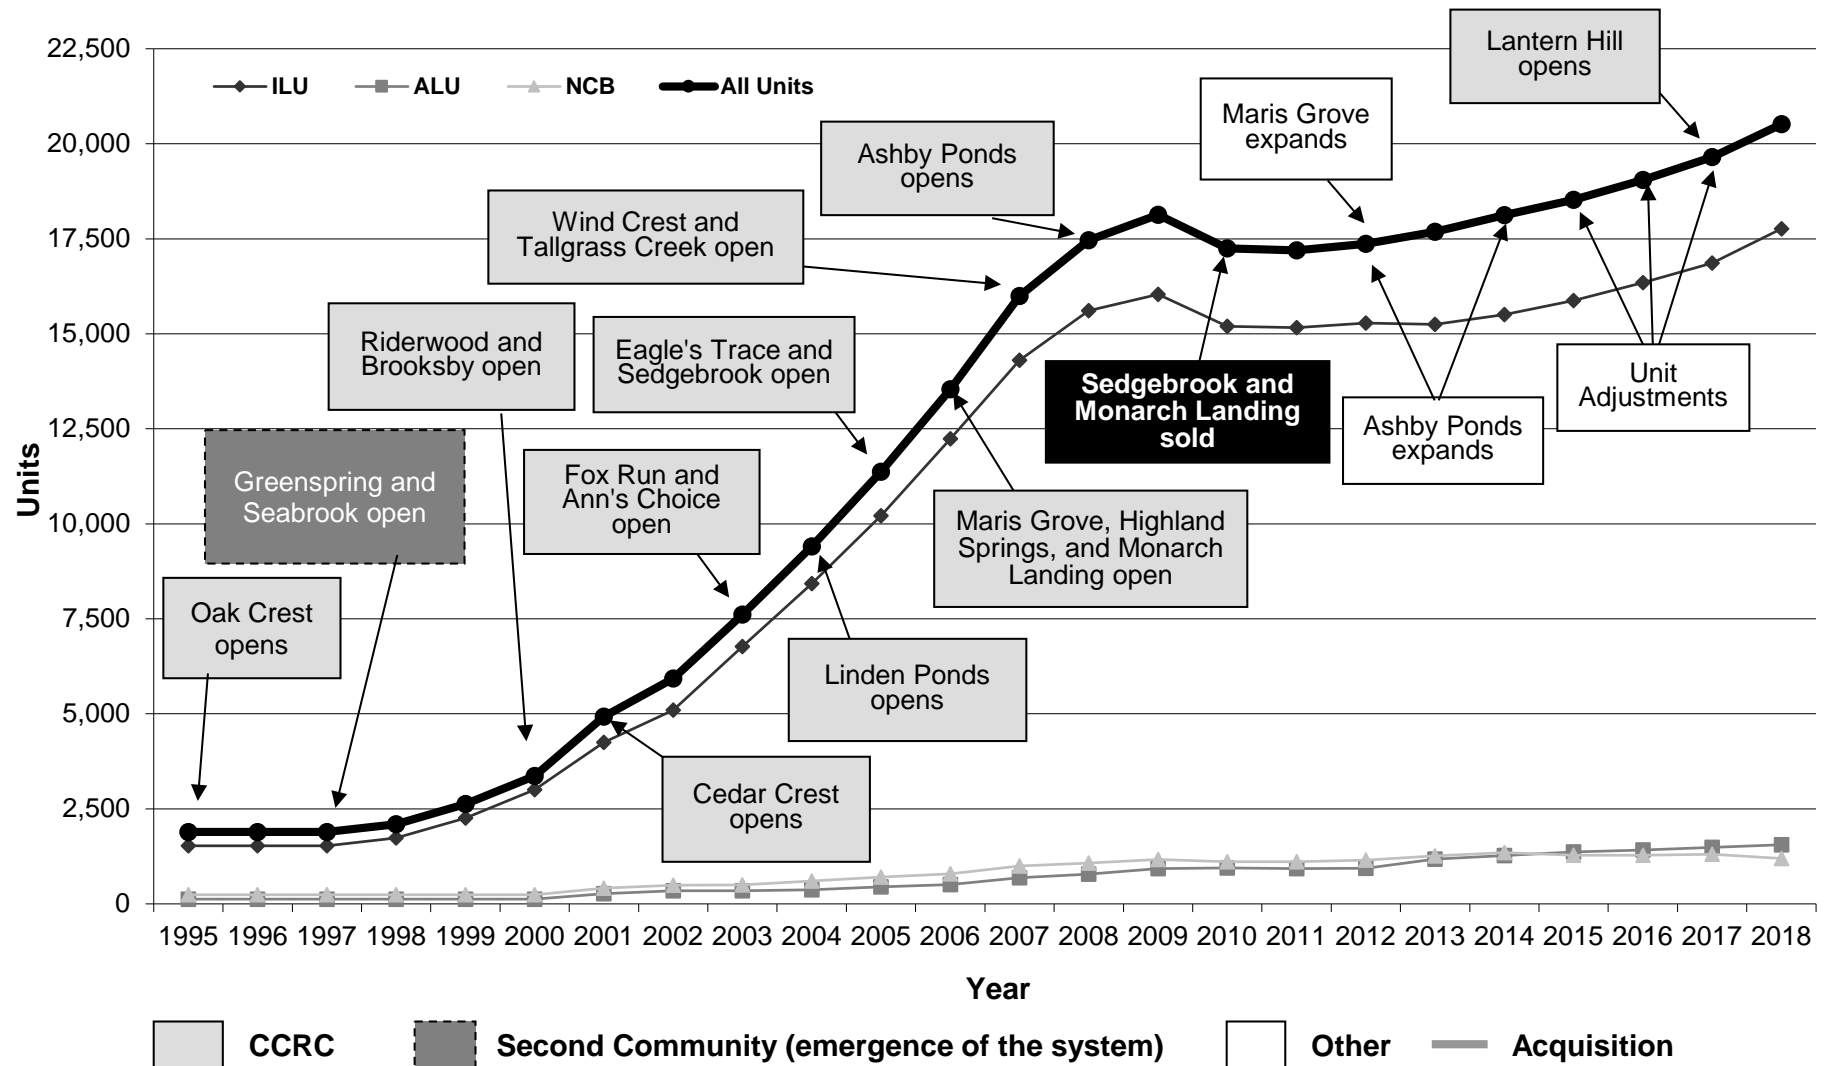

Pace of Growth: The Largest 25

Pace of Growth charts (Charts 5-2a-t) trace the growth patterns of 20 of the 25 largest multi-sites in the LZ 200. Each significant point of growth in a multi-site's history is marked and explained on the chart. Five of the largest 25 organizations of the LZ 200 were excluded because of insufficient historical detail: The Evangelical Lutheran Good Samaritan Society (LZ 200 #2), Ascension Senior Living (LZ 200 #5), Trinity Health Senior Communities (LZ 200 #6), Benedictine Health (LZ 200 #9), and The Carmelite System (LZ 200 #19). The Pace of Growth charts show the different methods of change the systems are employing. Significant new community construction and expansions are noted, with the addition of the second community highlighted in a dashed box. Mergers and acquisitions (gray-framed box) and dispositions (bold black box) are also highlighted.

We encourage readers to study each of the Pace of Growth charts, comparing not only the differing pace by which these organizations have grown and changed, but the methods by which these changes have occurred.

Growth: Aggregate Growth

Aggregate Growth

Section 5-3 of the report details the pace of growth among the LZ 200 organizations in terms of average annual growth and aggregate growth.

These tables list the organizations within the LZ 200 that have increased in size the fastest between 2017 and 2018, 2000 and 2018, and 1990 and 2018 (Charts 5-3a-c).

Average annual growth is calculated through a geometric mean calculation that captures the time factor in growth. For example, an organization may have taken 50 years to double in size, but then it may have doubled again in a five-year period. These changes in growth rates are not uncommon and may be the result of a combination of a new management team with a new focus or an existing team's shift in focus and a decision to accelerate.

Growth: Aggregate Growth Organizations by Aggregate Growth, by Period

2019 Rank	System Name	State	Growth*		Units Added	Total Units (as of 12/31/18)
			Aggregate Growth (%)	Average Annual Growth (%)		
Growth in 2018 (n=200)						
131	Brazos Presbyterian Homes	TX	46.59%	87.22%	348	747

59	SantaFe Senior Living	FL	342.71%	13.20%	1,011	1,306
Growth from 1990 to 2018 (n=122)						
40	Loretto	NY	879.07%	10.93%	1,512	1,684
102	Givens Estates Retirement Community	NC	871.74%	10.89%	802	894
4	Presbyterian Homes and Services	MN	860.00%	10.83%	7,009	7,824
82	Elant	NY	729.17%	10.09%	875	995
154	Smith Senior Living	IL	716.00%	10.01%	537	612

* Aggregate Growth was calculated by dividing the units added over the time period by the original number of units at the beginning of the time period for each organization. Average Annual Growth was calculated by finding the geometric mean over the period (1, 13, or 23 years).

Note that some systems were founded after the beginning of the time period so they had zero units at the start of the period. Aggregate and Annual Growth rates can not be calculated in these instances.

* Aggregate Growth was calculated by dividing the units added over the time period by the original number of units at the beginning of the time period for each organization. Average Annual Growth was calculated by finding the geometric mean over the period (1, 13, or 23 years).

**Note that some systems were founded after the beginning of the time period so they had zero units at the start of the period. Aggregate and Annual Growth rates can not be calculated in these instances.

Growth: Future Growth Plans

Percentage Planning to Expand or Reposition in Next Two Years

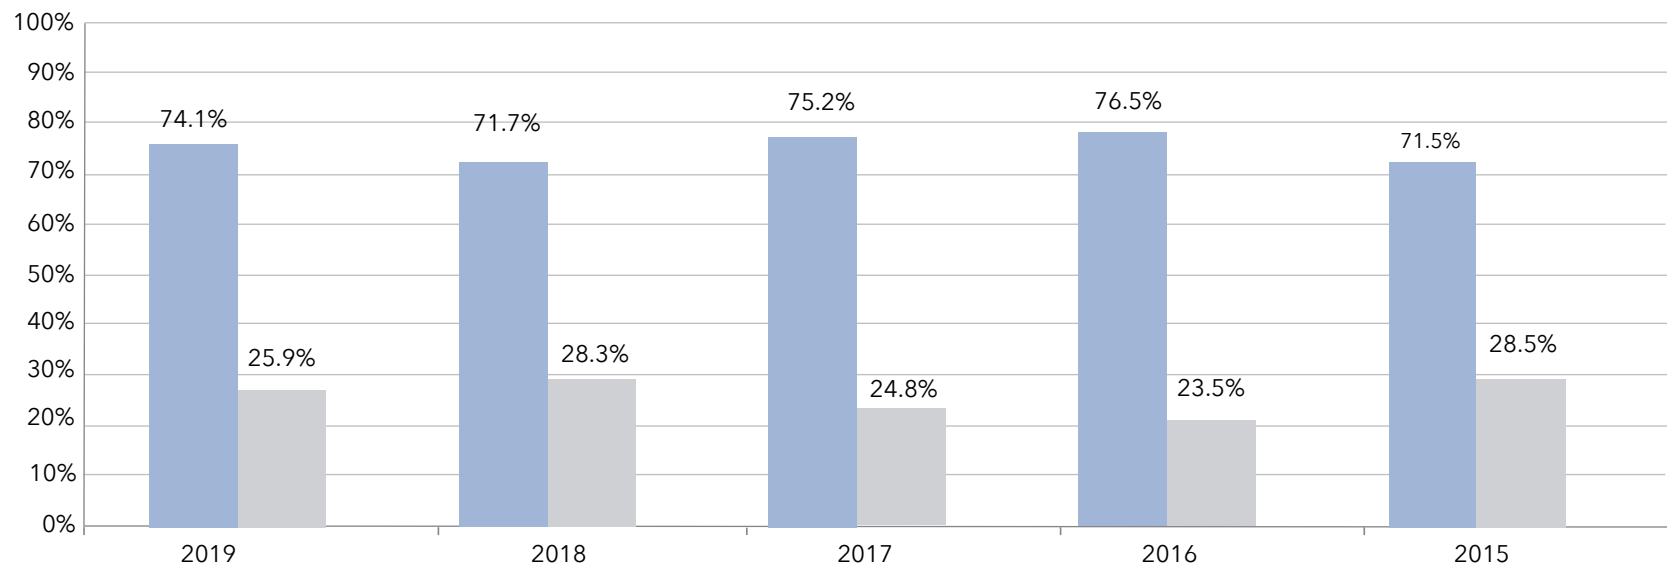

Future Growth Plans

Arguably, much information can be gathered about potential future growth, whether it would be in the form of bricks-and-mortar or expanding home and community-based services.

For purposes of the LZ 200, feedback is gathered on the intent to grow through affiliation, new campus development, or expansion in the next two years. Roughly 74% of the LZ 200 reported intentions to expand or reposition an existing campus in 2019 or 2020. Approximately 38% reported that they intend to grow via the construction of new communities or from affiliation. Another 28% responded “maybe” to this growth in 2019 or 2020.

Growth: Type of Growth by Organizations

Type of Growth: Expansion, New Communities, Merger/Acquisition/Affiliation, Disposition

Charts 5-6a-c and 5-7a-j describe how the largest 10, largest 25, largest 50, largest 100, largest 150 and all 200 multi-site organizations have grown through expanding existing campuses, construction of new communities or merger/acquisition/affiliation and/or disposition.

Properties have been classified according to the following definitions:

Expansion: The addition of new units to an existing community. Note: if a new community is added to an existing campus, this is also considered an expansion.

New Community: Growth by the addition of units through construction at a new location.

Merger/Acquisition/Affiliation: Growth of a multi-site organization by the addition of units through merger, acquisition or affiliation.

Disposition: The sale or closure of a community.

Growth: Type of Growth by Organizations

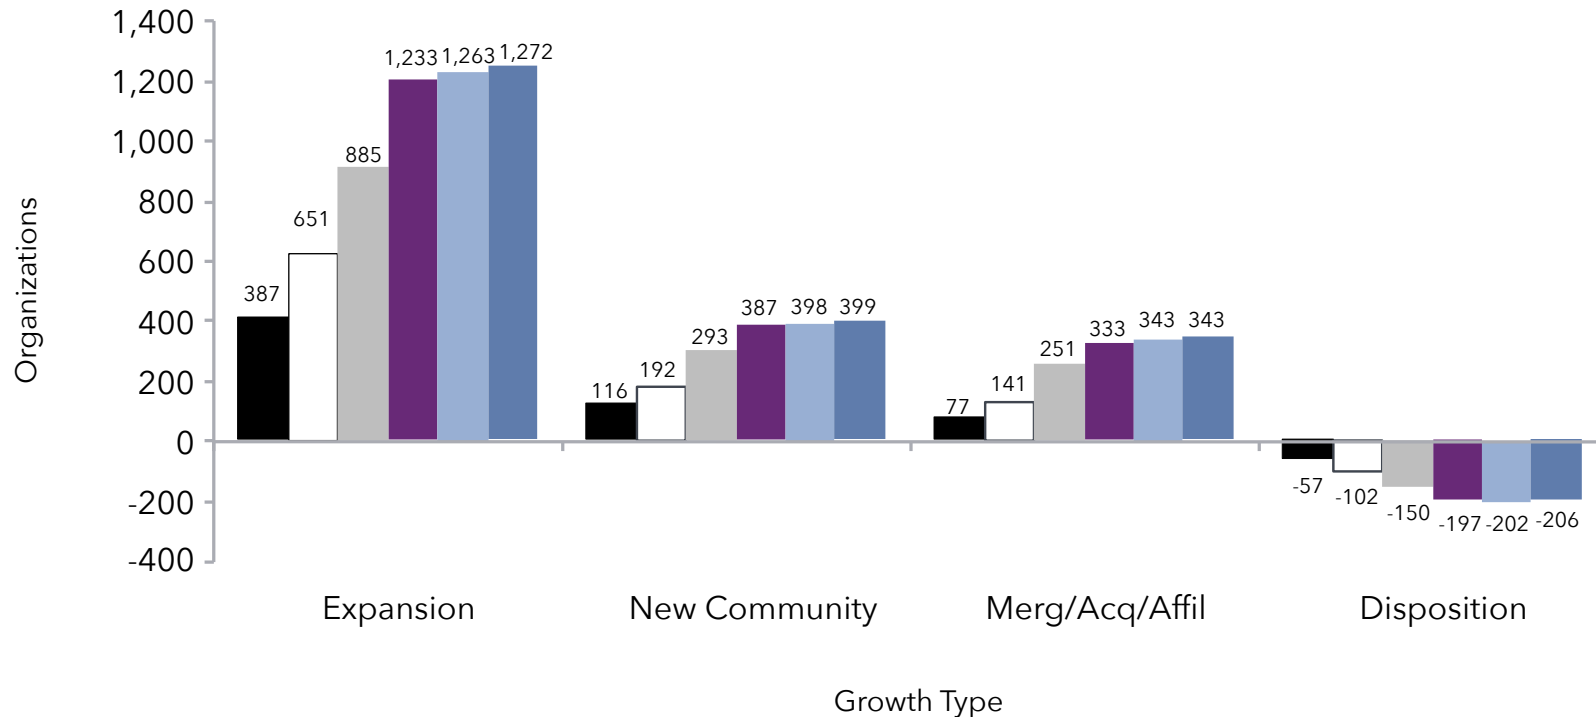

Type of Growth: Expansion, New Communities, Merger/Acquisition/Affiliation, Disposition (Continued)

The charts at 5-6a-c analyze how communities have changed through the above-described venues over a 10, 20, and greater than 30-year period (1980-2018). More than 1,272 communities have been added from campus expansion since 1980 (Chart 5-8a). Dispositions have also increased dramatically. Of the 206 community dispositions that occurred from 1980-2018 among the LZ 200 (Chart 5-6a), roughly 197 of these dispositions occurred in approximately the last decade (Chart 5-6c). The most common dispositions in recent years have been free-standing nursing homes or assisted living and financially distressed Life Plan Communities.

Charts 5-7a-j are used to present incremental growth by five-year period and cumulative growth by five-year period for each of the LZ 200 groupings (largest 10, largest 25, largest 50, largest 100, largest 150, and largest 200). The second of each pair of charts shows the incremental change of the multi-sites, that is, how many existing properties have experienced expansion; how many properties have been added through new community construction or through merger, acquisition and/or affiliation; and how many properties have been lost through disposition each year. For the incremental growth charts, the final five-year period is provided with the current year shown alone. The cumulative growth charts provide the number of properties added or lost through each of these methods through the period shown.

Chapter 6

Additional Listings

Three additional listings have been added to LZ 200 since its inaugural publication: single-campus senior living, affordable housing providers, and multi-site senior living that include affordable housing units. While some of the organizations on these lists may also appear in the LZ 200, these lists are composed of LeadingAge members that fit within these specific categories. Like the rest of the LZ 200, these are quantitative, not qualitative, listings. It should be noted that the affordable housing listings in Chapter 6 continue to reflect the largest 100 and were not expanded to the largest 200, as with the multi-site listings. However, the single-campus senior living listings have increased to the largest 150 and extends to the Over 150.

Single-Campus Senior Living Communities

A single-campus senior living community offers care at one location, or campus (Chart 6-1a). The single-campus communities are ranked by number of units. The single-campus organizations listed in Chapter 6.1a-e are not part of a system, but are single-site organizations.

These organizations may offer additional services, such as home-based care in the greater community, but oversee only one facility-based operation. The clear majority of these organizations are Life Plan Communities.

Chart 6-1c shows that 77% of these organizations offer some type of home-based care, either to residents or to individuals in the greater community. Figure 6-1d reveals that the majority of these organizations have adopted Electronic Medical/Health Records (EMR/EHR) and Electronic Point of Care/Point of Service (POC/POS) Documentation Systems.

Largest Individual Campuses

Added back into the publication last year is a listing of the largest 150 not-for-profit campuses in the country, regardless of whether they are a single-campus community or part of a multi-site organization within the LZ 200 (Chart 6-1f). The largest campus, Riderwood Village (MD), has a total of nearly 2,180 market-rate units.

Affordable Housing Providers

Using the LeadingAge Directory of Members and LeadingAge contact information, systems providing affordable (non-market-rate) and government-subsidized housing were researched and ranked according to the number of affordable housing units offered. This listing includes many organizations that are not on the LZ 200 multi-site senior living organization listing (Chart 6-2).

Systems by Total Market-Rate and Affordable Units

Chart 6-3 presents an aggregate ranking of unit types, market rate, and affordability. This type of ranking better reflects the size and scope of each organization that provides residential options for seniors of varying income levels. For example, National Church Residences is ranked as LZ 200 #41 (Primary Ranking) with 1,649 total market-rate units; the organization is ranked #1 among this year's listing of affordable housing providers with 18,361 total affordable housing units (Chart 6-2), a decrease of roughly 1,748 affordable units in the past year. By aggregating these two categories of seniors housing, the organization is the largest among the LZ 200 with 20,010 total units.

Additional Listings: Single-Campus Senior Living Communities

Closing Thoughts

In closing, the largest not-for-profit senior living organizations continue to grow and evolve with the changing landscape. This year, we had a number of single-site providers grow into multi-site organizations and join the LZ 200 primary rankings. We continue to see that for today's not-for-profits, growth is primarily being driven through community expansions and affiliations. Providers remain committed to home and community-based service platforms and the largest providers of those services continue to grow their annual revenue obtained from these services. Technology adoption will continue to be tracked as providers maintain existing platforms and explore investments into emerging solutions. It is our hope that this publication fully captures the behaviors and patterns of today's not-for-profit senior living providers and serves to enhance awareness among providers, business firms, associations, and other related partners.
